"MARRIAGE AND LOVE"

"Love," says a writer in the Fujin Club, a woman's magazine published in Tokyo, "is not a thing that lasts long. The affection between parents and children, between brothers and sisters, between friends, he further maintains, 'have a long-lasting character about them. But love is different. Even with people who loved each other, and were ready to die for it at one time, love can never continue for over five years. Love emotions attack one with extreme violence at certain times. But they do not last. A year, two years, three years, five years at the most. It is irrational to make love, and love alone, the decisive line between the happiness and the unhappiness of married life. However much two people love each other at first, their love cools in time. When their love cools down, their married life does not come to a close. Therefore to build married life, which must continue, on the foundation of an emotion that can not last is wrong. Also people are wrong in putting so much emphasis on love as they are doing nowadays in Japan."

Tanaka Plans For Coronation

Special to the Japanese American News TOKYO, Dec. 7.—Premier Tanaka called on Minister of the Imperial Household Ichiki this morning to discuss the question of the coming imperial coronation at Kyoto.

In speaking to pressmen regarding his conference with Ichiki, Premier Tanaka stated that he had visited the Minister of Household concerning the coming coronation due to the fact that the period of national mourning is now nearing a close and as it would be necessary before long to establish a definite and comprehensive program for the coronation service.

One of the questions discussed at the conference, Premier Tanaka said, was that of the Emperor's carriage or palanquin, on which he will ride to the coronation hall. No minor matters were discussed today.

Indicating the extent to which remote nations send their youth here are registrations by students from Palestine, Syria, New Zealand, Poland, Armenia and Hungary. Tabulations show other nations represented as follows: Spain, 7; German, 7; Roumania, 1; Chinese, 8; Sweden, 3; Switzerland, 2; Mexico, 8; England, 15; Philippines, 13; Bohemia, 1; Ireland, 1; Scotland, 2; Dutch, 2. In addition to these there are forty-one negro students on the U.C.L.A. campus. Friendliness of students and faculty toward their associates of other lands is one of the elements thought to contribute to their cosmopolitan complexion of the U. C. L. A. Student Body. In order to promote this friendliness and to establish a congenial atmosphere among the boys and girls from afar, the Cosmopolitan Club, one

M. A. C. Supporter Pens Fanatic Verse

OAKLAND—Dec. 8.—Overjoyed from the recent victory of the Oakland Merritts basketball team when their deadly rival, the Berkeley Taikub boys went down in defeat, an ardent M. A. C. fan and supporter penned the following three stanzas. The modest poet refuses publicity, but fingers point to a certain young boy who never wears a headband on streets. But that's not saying much so read it for yourself. THE M. A. C. 'Twas not more than a month ago, The M.A.C. led by five to four, 'Twas at the mighty hands of Berkeley, A game, they should have won, they say. Again they met at Bushrod park, And game was played till came the dark, The Merritts emerged with victory, And told a different history. So you see, we won! We won! And we're going to win another one. That makes between us, 2 out of 3, Superior is ours, so you'll see.
