Japanese American News THE LARGEST JAPANESE PAPER PUBLISHED OUTSIDE OF JAPAN...

OFFICIAL POINTS OUT OPPORTUNITIES IN JAPAN

Engineers Who Are Trained In Good American Schools Should Be Valuable In Japan

By H. B. TITUS

Member of the Commercial Attache of the Tokyo American Embassy

PRINCE MATSUKATA Whatever reverses the Matsukata family, which—in the heyday of its career, promised to become a new business dynasty—may have met due to the Kawasaki and Fifteenth Bank debacle, it has not lost an iota of the respect which its founder, the great Genro, engendered in its name.

It would seem advisable for engineers to make a connection with American construction firms who do work in Japan and come to Japan for those concerns.

ENGINEERS The backwardness of conditions in this profession depressed him and he was most unhappy. There is no doubt a field for well trained doctors, particularly in the country places, but we doubt that the remuneration for his work would be sufficient to keep him in the manner to which he is accustomed.

ARCHITECTS There should be a field for men who have been well trained in this line. There are only a few good architects in Japan and it is reported that these are busy and make good incomes.

DOCTORS There are a great many doctors in Japan and it is stated that at present two a day are being licensed. There are, of course, many doctors who are not up to the grade that an American trained doctor would be.

OPTOMETRISTS So far as I can learn, there are only three good Optometrists in Japan. These men are kept very busy and I am assured that one of them is so busy that he will not make an appointment but that one must go to his office and wait until he can be attended to.

Assembly Disagrees On Appointment

Special to the Japanese American News TOKYO, Jan. 13—The various factions in the Tokyo City Municipal Assembly have each recommended so many candidates for the post of secretary to the mayor that no agreement could be reached, and the finally decision resulted in allowing the newly appointed Mayor Ochiai Ichiki complete freedom to choose his own secretary.

From personal observation, I should say that there should be openings for young men with legal training in this country. Patent lawyers, who handle patents and particularly trade marks, appear to do an excellent business, and there should be opening in this line.

JOURNALISTS There would appear to be only very limited openings in this line. I am judging on reports only and have no personal knowledge of this line. There are a great many newspapers in this country and I am at a loss to understand why this condition exists, but it is said to be true.

GENERAL BUSINESS Many Japanese firms are doing their own importing in these times, which was not formerly the case when large foreign import houses did most of the importing.

As a foreigner, I consider that for a single man, if he keeps a house and one servant and eats in a manner similar to that of the United States, 400 yen per month, including clothes, but not including amusements, which are high, is the minimum.

U. C. PROF. TO STUDY ART IN JAPAN

PERHAM NAHL TO VISIT ARTISTS IN JAPAN SOON

BERKELEY, Jan. 15—The Occident and the Orient will exchange the secrets of perspective and wood-block prints this year, when Perham W. Nahl, associate professor in the art department of the University of California, returns from his proposed tour of Japan.

correspond in the usual English and do not know many trade terms in English which are perfectly familiar to them in Japanese. A young man with good business training might be able to develop a business in this line.

It must be remembered that any young man who comes to Japan after having lived in the United States will miss many things to which he has been accustomed.

Salary paid by Japanese companies are in most cases considerably smaller than would be expected by a Japanese who has lived in the United States and anyone coming must be sure that he is to receive a salary sufficient so that he will not become discouraged and wish to return forthwith.

KEIO BALL TEAM WILL INVADE U. S.

Nipponese To Play California Varsities

The Keio University baseball team of Tokyo, inter-varsity champions of Japan, will arrive here in April for a series of games with American university teams, according to a feature article by Kimpel Sheba, appearing in the sport page of the San Francisco Bulletin. The article continues:

"Games are tentatively scheduled with Stanford, California, and the University of Southern California, as well as with universities in the north. "Keio has sent three or four teams to this country in the past, and with Waseda, holds the distinction of having developed baseball in Japan to a major sport, and also of having given the people of this country an insight into the way the game is played in Nippon."

Coleman told the committee that more than 300 Japanese, 40 Chinese, and 30 Korean delegates are expected to attend the Los Angeles Conference. The Oriental delegation will be divided into three groups after the conference and they will visit the following places: First group—California Second group—East Third group—Canada

CONFERENCE DELEGATES TO ARRIVE JULY

THREE HUNDRED JAPANESE TO BE WELCOME IN CITY

The 300 Japanese delegates to the World Sunday School Conference to be held in Los Angeles for one week from July 11 will arrive in San Francisco port on July 6, it was learned at the committee meeting of prominent Japanese and Americans of this city who are planning to give them a rousing welcome.

The meeting was held at the St. Francis Hotel Friday afternoon from 4 o'clock, and the following were present: Dr. Guy of Berkeley, Case of Y.M.C.A., Dr. Shaw of the Church Federation, Steele of the Japan Society, Rev. Hata of the Japanese Church Federation of North California, K. Tomizawa of the Japanese Y. M. C. A., Miss Yamamoto of the local Japanese Y. W. C. A., T. Yamamoto of the N. Y. K., and I. Shibata of the Consulate General. Coleman, who arrived in this city from Japan some time ago in order to prepare the way for the Japanese delegates, was also present at the meeting.

\$3000 Is Japanese Chest Quota The Community Chest drive will begin on February 27, and the Japanese community of this city will be asked to raise a quota of \$3000. Four committee members from the Chest headquarters visited the Japanese Association of San Francisco in order to solicit the cooperation of the Japanese public in this great humanitarian enterprise.

UTAJI TO PRESENT 4 TRAGÉDIES

Japanese Troupe To Give Plays At Fairmont

Ichikawa Utaji and his troupe of eighteen actors from Osaka and Kioto, who are now on this Coast on a theatrical tour, will present a series of four Japanese classical tragedies to the American audience at the Fairmont Hotel on Tuesday and Wednesday evening, January 24 and 25, at eight o'clock, in order to give the occidental people some impression of the Kabuki, or the pure classical drama of Nippon.

The program for the first evening will include two famous plays, "Two Pines" and "Chikara." The first is a tragedy of feudal Japan in which a faithful samurai is misunderstood and beheaded by his Daimyo. The behavior of the grief-stricken family of the samurai, as acted by the Utaji company, is said to be a great piece of acting.

During the second evening's performance the company will present two other plays, "The Village School" and "Ten-Ichi-Bo." The former is a play whose plot is interwoven around an incident in a village school in the year 902 A. D. The latter is the story of a notorious impostor who attempted to gain the power of the Tokugawa Dynasty. The tickets for the two evenings are now on sale at Sherman, Clay and Co. for \$2.00, \$2.50, \$3.50. Owing to the limited seating capacity, early reservations are requested. The second generation members are urged to see this most educational entertainment.

"What sort of a writer is Theodore Dreiser?" "Very successful, my dear." —Williams Purple Cow.

Bank Jobs Open For Young Men

Excellent opportunity for lively Japanese young men who can read both Japanese and English is open everywhere. A fair training in the Japanese language will land any second generation a good opportunity in a promising field. The Yokohama Specie Bank of Los Angeles offers similar opportunity to young men, it was learned here yesterday.

Noted Artist To Leave For L. A.

Noboru Foujoka, noted impressionistic artist, who has gained considerable reputation in this city by his exhibit at the local Gallery of the California Palace of the Legion of Honor, will leave for Los Angeles on January 20, in order to conduct an exhibit in that city. Following his exhibition there, he will travel north and display his work in Seattle.

"Do you like my dress, dear?" "Yes, it always was a favorite of mine." —Stanford Chaparral.

The Iwaki Drug Co. 201 East First Street, Los Angeles, Calif.

Advertisement for Iwaki Drug Co. featuring a bear holding a bottle of medicine and text describing stomach ailments.

Large advertisement for '胃腸病' (Stomach Disease) featuring a bear holding a bottle of '胃腸ダイゼリン' (Gishin) medicine. Text describes symptoms like indigestion and chronic stomach issues.
