TOKYO, March 13—In the presence of T. M. the Emperor, Prince Chichibu, princess and princess of the blood and high state officials, funeral services were held today for Princess Sachiko Hisanomiya, youngest daughter of the Emperor and Empress who died last week.

The funeral cortege started from the Akasaka Palace, where the Mikado and his consort saw the casket bearing the remains of their daughter off. Prince Chichibu and Prince Asakura Kuni, a brother of the Empress, acted as pall bearers.

The cortege left Akasaka Palace at 1 o'clock this afternoon and arrived at Toshimagaoka at 4 p. m. All amusements were suspended during the day out of respect for the rulers of the Empire.

MEIJI PLANS TO ESTABLISH DEPARTMENT FOR WOMEN

University Plans Described As Epoch-Making; 300 Women Expected To Enroll Coming Term

TOKYO—Meiji University will set the precedent for private universities and colleges next April when it will establish a "senmonbu" or college department for women who wish to specialize in law, economics, commerce, political science or other related subjects. About 300 will be admitted this year.

The University has already applied to the Department of Education for approval, which, it is expected, will be given without trouble. Graduates of this department will enjoy equal privileges with those of the men's "senmonbu" or university proper of Meiji without further examination. Upon graduation from the university proper, these women can receive degrees just like the men.

PROJECT LAUDED Dr. Hideo Yokota, president of the institution and ex-president of the Supreme Court, says that the opening of Meiji's doors to women will constitute an epoch-making event in Japanese women's educational history. He hopes to obtain the Monbusho's approval without difficulty.

"We want to have the new department opened with the new term, and have already taken necessary steps," he explains. "It will be an epoch-making event in the history of Japanese women's education."

"Up to the present the educating of women in law and political science has been totally neglected. That is a mistaken idea, and we must reform it as early as possible. It will be good for society to have women lawyers and legal experts." Only three of the Imperial Universities, those in Sendai, Hokkaido, and Kyushu, now admit women on the same status as men, and these opened their doors to women only a few years ago. Waseda and Tokyo admit women but only as special students.

S. J. NITTO LOSES TO Y. M. C. A.

Winners Will Play Fresno YMBA Saturday

SAN JOSE, March 12—Superior guarding and teamwork accounted for the 9-13 trimming handed the San Jose Nitto cagers by the San Francisco Japanese Y. M. C. A. quintet, last Saturday night at the San Jose High court. The 'Y' boys simply outclassed the Wildcats, and were leading 28-8 at half-time.

An outstanding feature of the game was the fine work of Shuichi Miho in guarding, Jay Nishida, star Wildcat forward, allowing him only one field goal. The 'Y' played well as a team but should have scored more on "set" shots.

Ichihita for the Nitto Club was the one who lead the S. J. offense, and he was continuous threat to the 'Y'. Kaneko, Fujita, and Endo led the attack for the S. F. team displaying some pretty pass work, and scoring most of the points.

Minseito Plans Mass Meeting

TOKYO, March 13—The political dickering between the Seiyukai and the Minseito parties which have been carried on more or less behind covers since the death of Princess Hisa, daughter of the Emperor and Empress, out of respect for the sorrow of the nation, are again being waged in the open following the conclusion of the last sad rites for the infant princess today.

The Minseito has announced the calling March 29 of a mass meeting at Ueno Park for the purpose of attacking the government. Minister of Railways Ogawa, in contradicting published statements attributed to Minister of Home Affairs Suzuki to the effect that the government party would again call a dissolution of the Diet in the event that the Seiyukai should find itself at the forthcoming special session of Parliament with an insufficient number of votes to assure a majority, declared that the Seiyukai would resign if this

both the Seiyukai and the Minseito are now battling to have one of its members appointed Speaker of the Lower House. The Seiyukai is championing Gino Kasuya while the Minseito is launching a campaign to obtain the post for Fujizawa Ikunosuke.

Young Singers Engaged To Support Social

PLEASANT NIGHT DOPED BY YOUNG PEOPLE FOR FRIDAY

STOCKTON, March 14—Under the auspices of the local Buddhist young people's organization, a spring season social get-together and a jolly mixup will be held on March 18, Friday beginning from 8 p. m. at the church auditorium. Interesting program in the form of musical entertainments, lectures, speeches and vocal solos are to be enjoyed. Many local second generation talents will appear in the cast to make the evening a jubilant affair.

Among the young notables to participate in the bright social, there are some wonderful singers slated on the bill. Miss Rosie Hasegawa, whose numerous appearances before the American public has been favorably received, will be heard in several musical numbers, supported by equally talented vocalists.

The social will be conducted purely by the younger people of the city and promises a very pleasant evening. After the program, tea will be served in the social room of the Buddhist Church. The public is invited.

BOWLES TAKES CUP IN FRESNO SUMO TOURNEY

1,500 Spectators Thrilled As Bowles Wrestlers Triumph; Nishimoto Is Undefeated Champ

FRESNO, March 12—For the second time Bowles, winner of 1926 meet, captured the beautiful loving cup at the third great annual "sumo" (Japanese wrestling) tournament held in this city Sunday, and some 1,500 fans of the Central California districts crowded the grandstands around the great arena to witness the six organizations fight for supremacy.

T. Nishimoto, undefeated champion of the tournament, won for himself the title "Tsuchisukaku" literally meaning "not touching the dirt" and he was given the silver loving cup donated by the Taira Jewelry Co.

The tournament, which was sponsored by the Young Men's League, began at one o'clock while the sun shot forth at six ruddy golden rays amidst the crowd which wildly acclaimed Bowles as the 1928 winner of the loving cup. H. Sasahara, president of the League, accompanied by the referee, T. Takayama, conferred the cup and the championship flag to Bowles.

The points earned by the towns were as follows: Bowles—11 Fresno Y.M.B.A.—7 Parlier—7 Selma—5 Fresno Y.M.C.A.—4 Fowler—2.

Bowles won the cup at the first annual contest in 1926, and by virtue of these two victories, is now the permanent possessor of the silver trophy. The opening ceremony, "sunakuzushi" performed by Harukoma and Kitahiki, was followed by the "chirashi-sumo", which did not count as part of the championship series. Many of the young American-born Japanese participated in this event, one of them being Kikuo Taira, gold pin honor student of Fresno high school. It was also interesting to note that the second generation was active in this tournament, most of this year's wrestlers coming from among the American-borns. Boy Scouts of Troop 18 helped to preserve order, and member of the Y.W.B.A. sold hot-dogs and soda-water to appease the hunger of many.

The major part of the afternoon was spent in the contest for the championship. Each town or organization sent three representatives (one representative each for the A, B, and C classes). Five rounds of wrestling were originally planned, but as Bowles won at the close of the fourth round, the tournament ended at that time.

Exciting Matches

All the wrestlers were in good condition and battled quite determinedly to win, so that the spectators got plenty of thrills. One of the most exciting bouts was that between Shohara of Bowles and Hirata of Parlier; the former defeating his antagonist. During the second round, Hirata matched his skill and strength against those of Harada of Fresno Y.M.B.A. and won.

The spectators witnessed in the third round, a well-matched bout between Chamori of Parlier and Ben Abe of Selma both of whom wrestled to two draws at first and altogether contended five times before the outcome could be decided. Chamori won three out of the five attempts, so was judged the winner between the two. Harada of Fresno Y.M.B.A. wrestled with Kato of Fowler. These two young men afforded intense excitement as both were of almost equal weight and size and were thought to be of much skill. After some struggle, Harada eventually got the decision.

Komoto vs. Nakagawa

The most attractive match was probably that between Komoto, Fresno Y.M.B.A., and Nakagawa of Bowles, who won this bout. Dexterity and alertness marked the wrestling of both and gave a deal of keen enjoyment to the crowd. Other features beside the championship wrestling were the "sannin-muki", the "yonin-nuki", and the "tobitsuki". In the first-named feature, "sannin-nuki", Yoshikawa of Fresno Y.M.B.A. won, while Hirata of Parlier, Iwasaki of Selma, and Yokomi of Bowles were the winners in the next feature. Masuda of Sanger won the "yonin-nuki".

Merchandises and cash awards were presented to the young men's League by the local merchants who are backing up the League in its good work and have done much to help make the tournament a success.

Sacramentans Hear Buddhist Lecture

SACRAMENTO, March 13—Series of lecture is being given at the Buddhist Church by Rev. Junsei Nishitani who, after arriving in America from Japan some time ago, has given over 80 lectures all over the country on Buddhism. As he is a well known lecturer, the Buddhist Church was crowded with earnest listeners on Sunday evening, March 11th, the first night of the four nights of lecture. A similar crowd is being accommodated every night. As the lecture is not difficult to understand, all young people are urged to attend.

THE VANISHING JAPANESE

Statistics recently compiled by the Japanese government reveal the astonishing fact that during the year just past 14,716 Japanese returned to their native land from the United States while but 5,282 Nipponese were admitted into this country. It is further stated that as each year passes the number of Japanese returning to Nippon increases while the number coming to this country decreases. The principle explanation for this strange phenomenon is the steadily growing difficulty of Japanese to make a living in this country due to the numerous barriers that are yearly being erected by self-styled patriots, and to the in-born desire of the Japanese people to return to their native land.
