SHOWA BANS RELATIONS WITH W.C.P.

Battle Royal Starts As West Coast Five Vanquishes Locals

"If a basketball game, or any other athletic contest, produces ill feelings, or if the players choose to win by fair play or foul—such game and such players do not deserve the support of the community. It should be discouraged."

This, in substance, is the opinion voiced by the officers of the San Francisco Showa Club following the tumultuous basketball battle—and it was a real battle too—staged between the West Coast Produce five and the Showa aggregation at the Berkeley Armory Saturday night.

Provoked by what they allege was unsportsmanlike tactics, the Showa officials at a special session Saturday night decided to cut all relations with the West Coast Produce team. Baseball schedule with the West Coast boys, which had been drawn up some time ago, was cancelled yesterday by the Showa manager.

WRONG ATTITUDE

"Watch out for this fist!" "I will get you yet!"

These remarks are said to have passed during the rough-and-ready clash that moved the spectators to excitement Saturday night. Many a fan was disgusted, it appears, as a little boy seemingly sent in for the purpose of picking on a Showa guard, a move that forced the referee to rule out both players with the San Francisco team losing in the transaction. According to spectators, it is unfortunate for the Berkeley team that one or two such boys should spoil the reputation of the entire team. Most of the Showa's score was made by registering foul shots.

W. C. P. WINS 27-22

The West Coast Produce won the game by 27 to 22, thus making this year's standing a tie between the two teams. The Showa won its first tilt by 16 to 20.

The outstanding stars of the winning team were Homer Izumi and Yoichi Domoto, who showed some classy floorwork. Jiro Omata and Tai Inazu played well in their guard positions.

For the Showa, Sim Nanbu, star football player of Showa, displayed his best in both defensive and offensive game, while Bee Uyeda and "Yossan" Hayashi exhibited their skill in ringing many winning points.

Y. W. C. A. WINS BY 1 POINT

In the preliminary game the San Francisco Y. W. C. A. ladies downed their opponents of the Hoshi-no-Hana Club of Berkeley by the score of 23 to 21. Both teams exchanged beautiful basket shooting coupled with keen floorwork. The game being so closely contested it was necessary to use three watches by the time-keeper in the latter part of the game. With half second to go and Hoshi-no-Hana ahead, the Y. W. C. A. tossed its winning basket with the score reading 21 to 22.

STORM HITS CHINA CITY

SHANGHAI, March 14—Flour-like dust from the Gobi desert enveloped Shanghai today in the worst storm reported here in ten years. The dust was blown more than 1500 miles borne on a storm which originated in Mongolia on March 11.

New Orient Tour Book Lauded As Colorful Guide

"China and Japan," by Frank F. Bunker, J. P. Lippincott Company Price \$1.50.

Dr. Bunker understands the technique of writing a fascinating travel story in a manner that allows him to include a rich vein of material concerning the lives, history, old-age superstitions and customs of these peoples so greatly misunderstood and ill respected by the Western world. This is the journey from the interior of China to Shanghai and Hongkong and from the mountainous island of Japan to Tokyo and Yokohama.

Vivacious Second Generation Girl Thrills Audience As She Performs Feature Dance Act At Local Theatre

A dainty and demure Japanese dancer, Miss Ruth Kadomatsu, who is on the stage of the local Warfield Theatre for this week, is evoking much applause and favorable comments from the theatre-going public.

A native of Los Angeles, with all the characteristic American vivacity and with a touch of that subtle Oriental charm, Miss Kadomatsu is making a decided success with her performances here. In the first part of her miniature act she is represented in a gorgeous flowing Japanese kimono, and she interprets something exotic and novel and therefore attractive. Then she bursts out into the habilitations of the West, and cavorts in a captivating manner.

The Japanese Terpsichorean artist is a pupil of both Theodore Kosloff and Ruth St. Dennis, two of America's leading masters. Due to the fact that she is lending an Oriental charm to the beautiful stage setting of the Warfield, she is invariably popular aside from the merits of her art.

YMCA DOWNS NISSEI FIVE

Local Boys Get 16th Straight Victory By 27 to 14

In a spectacular contest that required close checking on the part of the two teams, the Japanese Y. M. C. A. varsity quintet, defeated the Nissei Club of Berkeley at the Oakland Tech High School court Friday night by the count of 27 to 14.

The Japanese "Y", behind the fine playing of Ray Kaneko, Hisashi Morioka, Susumu Yamakawa, and Shigeru Koba, kept the Nissei team at bay during the four quarters of play, and to these boys belong the lion's share of the credit for the victory.

For the losers the three Yamamoto brothers scintillated. It was a treat to see this young Yamamoto, the prince of the Yamamoto family, handle the cassa and execute his dead-eye shots. He was easily the outstanding performer on the Nissei team.

Before the game the two teams met on the floor and held a silent tribute for Bo Iwai, who was stricken with cancer trouble and passed into God's realm.

The game was Y. M. C. A.'s sixteenth victory.

Baron Sakatani Uncovers Rare Ruben Painting

TOKYO, March 18—Baron Sakatani, who used to be Mayor of Tokyo, believes he has made an art find at the Peers' Club here. At a recent dinner at the club he expressed the opinion that a painting hanging in the club is Paul Rubens' "Fighting With Wild Beasts of Prey," which vanished from the art world's ken about 100 years ago.

The baron admits he is not an expert on the old masters. But he said he had read a description of the lost work that convinced him it is in the possession of the Peers' Club. He has undertaken to trace the history of the painting in an attempt to identify it.

KUBOTA WILL FLY SUNDAY

Demonstration Flight To Be Undertaken At Long Beach

LOS ANGELES, Mar. 18—(Special)—Three Nipponese aviators are busy preparing for a flight to Japan from California.

Kenzo Kubota, who with Major Irvington of the U. S. Army proposed to have across the Pacific this summer, will conduct a demonstration flight over the city of Long Beach in his plane next Sunday. He had been scheduled to pilot the plane last Sunday, but due to unfavorable weather the flight was postponed till March 24.

Goto and Watanabe, residents of Venice, who have been looking forward to their flight to Tokyo since 1926, will leave Los Angeles for New York on their epoch-making flight to Japan by way of Europe. Their air journey, which will be undertaken in a plane built in this city, will follow the course from London over Northern Europe, Russia, and Siberia to Japan. They will take a steamer to London.

Talking Picture Not Popular With Japanese Public

TOKYO, Mar. 18—Japan is skeptical of talking pictures. The market for silent films grows yearly, but voices appear to spoil the illusion of action for most Japanese.

2-Act Comedy Choice For Endeavor's Show April 13

"The Supreme Desire," a two-act satirical comedy by Susan Glaspell, will be presented to the Japanese public by the Christian Endeavor Society on April 13.

The play, which is regarded highly by critics as a vehicle with much dramatic possibilities, will be presented under the direction of David K. Yamakawa, and this should assure an artistic performance which the young people may well look forward to.

"The Green Lamp," also a comedy in two acts, by Hillard Booth, will also be shown on the same evening as the added attraction. The cast for this play will be chosen within a few days.

WORTHWHILE PRODUCTION

In presenting plays with artistic merit, are sponsoring these unusual vehicles to help create a better dramatic appreciation in the community. Their efforts are regarded as a step toward bigger and better plays.

Rumors are prevalent that "The Patsy" or some other full evening performance will be staged some time in August.

NIPPON BANS BURGLARIES

Killing of Dangerous Thugs Is No Longer Crime In Tokyo

TOKYO, March 18—If a citizen in Tokyo kills a burglar who threatens his life that action no longer constitutes either crime or misdemeanor. This is a new modification of the law recently established by the procurators. This interpretation is said to have been made to help cope with the rapidly increasing number of burglaries and other kinds of robberies in Tokyo.

Heretofore, householders or other victims of robbers have seldom made resistance of any sort, yielding cash and valuables without protest. The principal reason for this is that the Japanese burglar usually goes armed and frequently uses his weapons if he meets resistance. But a secondary reason is that the general public believes that killing a robber constitutes a crime except in extreme cases where the victim has no other means of saving his own life. Tokyo's crime wave is scheduled for discussion before the Diet session a second time. Minseito leaders are expected to introduce a resolution pointing out that Tokyo is living in dread because of frequent robberies and urging the authorities to take immediate steps to restore peace and order.

The Japanese "Y" 110's took the lead in the first quarter which led them to a 27 to 17 victory over the Mission cagers of the same weight.

The game was closely contested with both teams shifting very fast on offense and defense. Mitsuo Saito and Shigeru Koba played a fine floor-game and assisted ably in feeding the Japanese "Y" forwards.

The Japanese "Y" 110's have not been defeated in their fifteen games to date, and it is expected that the team will go far in the "Y" State League.

The winners led 10 to 7 in the first half.

"SEPARATION": STORY BY K. HIROTSU

Translation from Work of Japan's Eminent Writer

(Continued from Sunday)
He decided to take a nap and just as he tried to close his eyes, he was startled by something which was reflected on the opposite window pane. He fixed his eyes on it. It was the reflection of what was going on in the car with the darkness of the night as the background. He first saw in the middle of one of the window panes broad black lines embracing something of pinkish cloth. With that image as centre, he expanded his vision. Those broad lines proved to be the arms of the foreigner and the pinkish cloth was the woman's dress.

OPPOSITE DIRECTION
He then looked at the opposite direction and there he saw the woman's arms thrown around the man's shoulders while his arms were holding her body firmly. They kissed each other and remained motionless as a petrified statue.

He then shifted his eyes towards the window pane on which their figures were erected. It was an act of daring and gallant, he thought. It was a long, long kiss. They would release their hold when the train approached the Shosen electric car stations but as soon as it passed them they again would fall into their firm embrace. The train passed Otsuchi, Omori and Kamata, crossed the bridge over the Rokago River and passed Kawasaki and Tsurumi. But still the couple were locked in each other's arms.

THEY WERE NOT MARRIED
At first, Nobuyuki was looking at them out of curiosity but gradually he began to be overwhelmed by their corporeal energy. He realized his bodily weakness and mental sterility. When the train neared Higashi Kanakawa, the two foreigners re-

AIR LINE TO DAIREN WILL BE STARTED

Plane Will Traverse Distance of 1800 Miles In 14 Hr.

TOKYO, March 18—To draw the outposts of the Empire closer to its political and commercial capitals, the Japanese government will inaugurate about April 1 an ambitious passenger, mail and freight air service between Tokyo and Dairen. Intermediate stations will be Osaka, the great industrial center; Fukuoka, the jump-off point in Japan proper for the 120-mile ocean crossing to Korea and Seoul, the capital of Korea.

The service will be operated by the Japan Air Transport Company, an official company launched by the Department of Communications, to be subsidized to the extent of 20,000,000 yen (\$10,000,000) for its first ten years. This company is designed to amalgamate the interests of the Tokyo Government-General and the Kwantung Leased Territory (which includes Dairen) in the enterprise.

COOPERATE WITH CHINA

It is hoped eventually to sign an aviation agreement with China whereby the service will be extended to Shanghai, either from Dairen or more directly from some southern Japanese port.

The air line is planned to reduce travel time between the Imperial capital and Dairen, the center of Japanese activities in Manchuria, by approximately 80 per cent. The rail and ferry route between the two cities, by way of Seoul and Mukden, about 1800 miles, now takes about seventy-two hours to traverse. The proposed air schedule is fourteen hours flying time.

Twelve Fokker monoplanes, already purchased in America and Holland, will be used at the inauguration of the service, fitted with the latest comforts of air travel, including armchairs and radios for passengers.

FRESNO NINE PLANS TOUR

HONOLULU, Mar. 8 (By Mail)—Four or five of some of the best Japanese ball players in Honolulu will be picked to make a tour as members of the Fresno Japanese team of California already scheduled through Japan, China and the Philippines next year in the spring, according to K. Zenimura, crack shortstop of the Fresno team, who left a few days ago for the mainland.

Negotiations have been made through the cooperation of the Meiji university team for its schedule in Japan. This will be the team's second trip to Japan. Among the local players that went as members of the team are George Mamuya, Asahi ball team member, and Taijiro Miyahara.

One of the prime purposes for Zenimura's departure at this early date is to make arrangements for the Meiji university ball team's tour along the Pacific coast. The team is booked to leave Yokohama on March 15 for a world tour.

While on the Pacific coast, the university squad will meet American-Japanese and American university teams all the way from Los Angeles clear up towards Seattle. Among the teams crossing back with them no doubt will be Fresno, headed by Zenimura, with a large number of Hawaiian born Japanese players, and the Guadalupe team, which recently passed through here on its return tour from Japan. Matsuno, former star pitcher of the Asahi team, and Wallace Arakawa, crack first baseman of the same team, are members of this team.
