SAN JOSE, May 7—Wherever Japanese farms and hamlets are located, in the highways and byways of this Valley of Heart's Desire, the talk of the hour is the mammoth annual celebration of the Fiesta de las Rosas, which will be observed with all its traditional gaiety and splendor in this city on Friday and Saturday, May 17 and 18.

Nearly 100 floats, resplendently garbed in living flowers and greenery, will move through the rose grown streets of San Jose a week from next Saturday in the huge floral parade that features the celebration.

SHOWA NINE DOWNS OAKS

Merritts Crushed By 13 to 7 At South Side Park, Sunday

Before a huge crowd of ball fans, both Japanese and Americans, the local Showa Athletics nine swept away to a clean victory last Sunday in the game against the touted Oakland Merritts by the score of 13 to 7 at the South Side ball park. The Oakland lads had been out to repeat its three years of victory over the local boys but were given a surprise by the superior playing of the Showa nine.

CHANGES PITCHER
With the score standing at 7 to 2 in the fourth inning in favor of the Showa nine, the Merritts were compelled to change their pitcher from Kitamura to Ochiikubo, but the change did not stop the heavy hitting of the Showas. For San Francisco, Benny Matsuda pitched an excellent game.

The average hitting pace of the Showa nine excelled that of the Merritts, although individuality Chinn, Kitamura, Ochiikubo, and Utsumi were doing the most of the hitting for the Oaklanders.

CLOSES SEASON
For Showa the hitting honors were shared by Y. Hayashi, Ebe Ueyeda, Shin Nambu, Mas Nakamoto, Lincoln Tokunaga, Yone Yamazaki, Frank Ito, Onishi, Kay Yama, and Benny Matsuda. Sunday's game concluded the spring season for the Showa nine, which will not resume playing until after summer. However, during the long summer there will be a Showa second team, which will unite with the varsity after the vacation to vie for the Bay championship.

Henry Minami, manager, has shown much good judgment in his management of this season's games.

TODAY'S BIRTHDAY
Katsumi Okasaki, Selma, Calif. Here is an interesting letter from George Kashiwaga of Livingston:

Dear Sir: Editor: I did not write to you sooner because I had to irigate. I wrote to George Nagata last month, but did not receive any letter since then. I think he is too busy. I don't blame him. I think the boys of this club are letting the girls do the letter writing so the keep the boys more faithful I will say, "Fep up a little more and write as the girls do."

Here is a riddle from George: Q. Why does a snake swallow a rat head foremost?
A. Because the snake used the tail for a toothpick.

Ohta's Victory In British Net Tilt Is Lauded

LONDON—Ohta's victory at Dulwich recently, when he captured the hard court championship from O. G. N. Turnbull thereby avenging the defeat he sustained last year at the hand of the English champion, is his tenth consecutive championship in English outdoor tournaments, and his latest triumph has attracted the attention greatly of critics and special writers on tennis topics. These remark on the improvement of his play, especially his back-hand strokes, since his first meeting with Turnbull last year, and pay a tribute to his thoroughness in training and concentration which is described as one of the secrets of his success.

Thus, the London Evening News, which describes him as "one of our conquerors," says that by taking a leaf out of Ohta's book, some of the English players would soon pick up that half-fifteen that separates English tennis stars from the rest of the world's tennis stars.

High Cable Rates For Messages To Nippon Deplored

(The article which follows is taken from the editorial pages of the Vancouver Sun, which calls attention to the antiquated and exceedingly high cable rates between America and Japan. This state of affairs, as the Sun points out, is harmful not only to the promotion of international understanding but also detrimental to the development of Japanese trade here.)

The nations of the world are in competition for publicity. What chance has Japan to get into the publicity picture of the world with a 25-year-old cable system and a cable rate structure eight times higher than those European countries with whom Japan is competing for the attention of United States and Canada?

Industrially and in transportation, Japan is right up in front of the procession. But in communication she is 25 years behind. And being a comparatively new arrival in the picture, she is more than any other nation in need of publicity of trade, tourists and understanding.

WHAT'S WRONG?
What sinister influence has retarded communication development in Japan? Or has the Japanese, ambitious in commerce and marvelously quick in industry, failed to understand the cheap and rapid communication requirements of the modern world?

The commercial rate across the Pacific to Japan is 82 cents a word. The press rate is 32 cents a word. The commercial rate across the Atlantic is 18 cents a word and the press rate is 5 cents a word.

Co-operating with China, Canada and United States in the erection and operation of four or five big wireless stations, Japan could secure a communication rate across the Pacific equal to rates across the Atlantic, and probably since that service would be operated at cost, cheaper than Atlantic rates.

GOOD INVESTMENT
But even given Atlantic rates of 18 cents commercial and 5 cents press across the Pacific, there would be developed in one year tens of millions of dollars' worth of trade and a tourist traffic that would amaze every nation sitting around the Pacific Bowl.

Japan, owing her communication system and refusing private cable companies the right to operate in Japan, could bring about the start

IDEAL HUSBAND DESCRIBED BY JAPANESE YOUNG WOMEN

By YAMAMOTO CHUYO

What kind of young men girls wish to marry is always a serious question which no parents with a fair sense of affection and duty towards their daughters can afford to pass over lightly, and no less a matter of supreme importance is it to young men themselves.

The Fujokai has recently put the question to a number of high school girls of the fifth year or graduating class and has obtained answers, which it has now published. Girls in that form range in their age from 18 to 19, on an average, and have their own ideas on the question, and for that reason the Fujokai's enterprise is very interesting.

CHARACTER
Miss Y. of Yamawaki Girls High School says that her choice must be a man of good impression, she being unfavorably disposed towards one of the so called "modern boy" type. She detests the vulgar and overbearing, while she likes a tall man of masculine build. He must be, besides, a man whom you can respect and rely upon for his character, and who is manly and broad-minded, with the power of decision, but not lacking in social tact.

AGE LIMIT
In the matter of age and other qualifications, she would have him be 26 or 27 but not more than 30 at the outside, a college or university man, if possible, with sound ideas, knowing the course he must take, but he may be of the middle class with an income enough to assure the stability of life and economic independence, and it would be better if something is laid aside to meet emergencies. She is not particular about his occupation as long as he is zealous in his work, though she prefers a business man to a man of literary or artistic profession.

SIMPLE RITE
As to the engagement period, Miss Y. would have at least three or four months. A marriage immediately after seeing each other once is embarrassing, and she would not have it, if she could help it. She objects of this condition in one day.

Will Japan continue to isolate from world publicity, from world business, from world commerce and from world tourist trade? Can she afford to do so?
