NAVY AIRSHIP TO LEAD ZEP INTO NIPPON

Tokyo is Ready To
Welcome German
Airship

TOKYO, Aug. 16.—The Japanese naval dirigible, No. 7, the pride of Nippon, will point its nose northward from its hangar at the Kasumigaura airport and meet the Graf Zeppelin when the latter sails into this country next Monday evening, it was indicated here today.

At Fukushima the Iwaki radio station will broadcast the details of the Zeppelin's flight when the ship swoops over the Japanese territory.

MOSCOW, Aug. 16.—(UPI)—The dirigible Graf Zeppelin, carrying 20 passengers, a crew of 40 and Germany's ambitious hopes in commercial aviation, was soaring westward today over Russia's endless steppes, charting a new air-route from central Europe to the Far East.

Having traversed Germany, Lithuania, Latvia and the western portion of the Soviet Union, the mighty conqueror of the Atlantic now en route to Tokyo on the second part of her flight around the world, was heading toward Asiatic Russia on a great circle today, speeding along at a fast pace in order to avoid threatening storms.

TOKYO, Aug. 15.—A typhoon is approaching the southern Japanese coast, according to reports tonight, but meteorological experts believe that it will pass before the arrival of the Graf Zeppelin.

Preparations have been completed to receive the great liner of the air. Naval bases have been ordered to be ready to assist the airship in the event of a sea descent.

Germany Sends 12
Men to Dual Meet
In Tokyo, Oct. 5-6

By N. A. NAKANO

The German team and the events for the international dual track meeting in Tokyo on October 5 and 6 this year have been announced by the Japan Physical Culture Association, the national body in charge of the coming contest, and with which is affiliated the National Students' Athletic Sports Association.

According to the lists given out the German A. A. U. will send 12 athletes, including Kornig, the famous sprinter and Olympic star who has done 100 metres in 10.2-5 seconds, and Dr. Peltzer who established the world records of 47.2-5 seconds and 1 min. 51.3-5 secs. for 400 metres and 800 metres, respectively, in 1926. Other celebrated are Engelhardt, the middle-distance runner; Hirschfeld, the shot put and discus throw champion; Meier, the broad jumper, and Betz, the high jumper.

In all 17 events will be run off at the international meeting, nine of which will be track contests. The list is as follows:

Track—100 metres dash; 200 metres dash, 400 metres race, 800 metres run, 110 metres high hurdles, 400 metres relay, Swedish relay.

Field—Running broad jump, running high jump, pole vault, hop, step and jump, shot put, javelin throw, hammer throw and discus hurl.

GERMANY TAKING NO CHANCE

Germany, it seems, is taking no chances in the coming contest with Japan, especially on account of the two successive defeats of the French team last year at Dairen and Tokyo against the pick of Japanese athletes. She is consequently sending a strong squad of men whose records in their respective events are mostly better than the Japanese national records. Still with all their inherent superiority they will have the disadvantage of training in a foreign land whose climate is very different from their own, and of competing after a long trip across. Yet with all these handicaps the Teutons, provided the present membership of the team is not radically altered between now and October stand a very good chance of returning home victorious. The fact that Germany after years of athletic inactivity following the outbreak of the World War, made a surprising comeback to finish third in the 1928

Premier's Thrift
Program Inspires
Temperance Move

Special to The Japanese American News
TOKYO, Aug. 15.—Kochi prefecture on the Island of Shikoku is noted for its two distinctions: It is the home of Premier Hamaguchi, and it is the most notorious section for the consumption of sake, the national beverage of Japan.

Among the first to recognize this bit of irony is governor of Kochi prefecture. He insists that a prefecture which gave birth to such a great liberal statesman as Hamaguchi, who is noted for his temperance, should not give way to free indulgence in liquor. Liquor, this militant governor further points out, is the greatest factor for the depletion of national wealth. This does not fit in well with Hamaguchi's laudable scheme for economic re-trenchment, argues the governor.

Therefore, the governor has turned out an ardent advocate of liquor restriction in his prefecture.

E. L. TO HOLD DEVOTIONAL

1st Meeting Will Be
Presided Sunday By
Miss Elaine Oki

Epworth League of the local M. E. Church will hold its first meeting of the new semester tomorrow evening (Sunday) from 7 o'clock at the Church on Pine Street. Miss Elaine Oki will act as chairman.

The topic of the talks of the evening will center around the "Ake Tahoe Institute." Every member is asked to contribute something toward making the meeting interesting by telling to the group his experiences that occurred to him during the summer time.

Miss Yukie Kuwahara, young people's religious worker of the M. E. Church, attended the Institute at Lake Tahoe and has returned to the city last Saturday.

SHOWANS GET READY
TO TACKLE SHINKOS
ON SUNDAY, AUG. 25

BIRTHDAYS—Aug. 16, Lily Mori-
kawa, Elizabeth Nilso, Marian
Chiyeiko Korekiyo, Nozawa Tomo-
ye.

August 17, Esther Yoshie Kawa-
moto, Julia Inai, Hatsuye Holzu-
mi, Ferry Aika Yamakawa.

Dorothy Hashimoto, Et. 2, Box 79,
San Jose, California asks for more
letters from Juniors 14 and 15 years
old. She says,

"The camera which I received from you (for getting subscriptions)
surely does take nice pictures.
Thank you very much."

"Now I belong to three Junior
Clubs, the Junior Club of San Fran-
cisco (ours) and the San Jose Girls'
Club. I think every one of these
Clubs is just wonderful."

"If the Junior Section isn't get-
ting more interesting every day!"

We thank you ever so much, Dorothy. All of us like to be encour-
aged. It helps us to do better.

RUSSO-JAPANESE
WAR BULLET FOUND
IN VETERAN'S NOSE

Special to The Japanese American News
TOKYO, August—It was 25 years ago that a Russian bullet lodged in the face of one Asachi Yuasa, who as a reserve First Class soldier of the 23rd Infantry Regiment, Kumamoto, fought at the battle of Shao-hua in the Russo-Japanese War. A hostile bullet struck his face, right underneath his eye and entered his nose and lodged there. He received treatment at a base hospital, but as one half of his face had become twisted and senseless, no particular pain was felt.

From about May of this year the wound began to be painful. Nose experts announced the pain was due to ozena, but the pain became worse, and on the night of July 17 he was almost unable to breath. With one great effort he inhaled breath and with a slight sound some small hard object dropped from his nose into his mouth. It was found to be the bullet of 21 years ago, measuring about one inch long, about $\frac{1}{4}$ of an in diameter, considerably rusted.

Olympic Games behind the United States and Finland is sufficient proof of her strength on the athletic field.

The Japanese team will be chosen in all probability some time early this summer by a series of elimination contests, first regional and then the final one a national tournament. The membership as in the Olympic team will be made up mostly of students.

BUDDHISTS TO LAUNCH NEW TEMPLE

Plans To Hold Two-
Day Celebration
In Lodi

Special to The Japanese American News
LODI, Aug. 15.—The eighth anniversary of the founding of the Japanese Hall and the dedication of the newly organized Buddhist Temple will be celebrated by the local Japanese community with a two-day program, August 24 and 25.

The celebration will center around an elaborate amateur entertainment to be staged both nights in the Japanese Hall, under the combined auspices of the different organizations of this city. All persons having historic talents are urged to participate.

Both the Y. M. A. and the Service Girls' Club will present a varied program consisting of dramas, skits, and musical numbers. A modern Japanese drama, "Kinshi-Kunshi," will be sponsored by the local Engie Kai.

DEATH ENDS MAT CREER

Injury, Illness Are
Causes of Death
Of M. Matsuda

BATTLE CREEK, Mich., Aug. 15.—Matty Matsuda, Japanese wrestler and former holder of the world's lightweight and welterweight titles, died in a sanatorium here today. He had been critically ill for a week.

An injury, suffered three weeks ago during a match at Cincinnati with Basanta Sinch, East Indian Wrestler, is believed to have hastened his death.

SHOWANS GET READY
TO TACKLE SHINKOS
ON SUNDAY, AUG. 25

Out to snatch the scalps of the Shinko Japanese champions, the local Showa Club baseball nine will hold its practice at Funston Field today (Saturday) in order to prepare for the contest with the Nippon invaders at the Alameda ball park on Sunday, August 25.

At the practice game today the manager will select the players who will cross bats with the Shinko nine. During their short stay in this country, the Nippon champs have played several Japanese ball teams in Seattle and in California. They played the Sacramento Nippon Stars and the Fresno Japanese nine but lost both games. The titles were both lost by a narrow margin. The Shinkos lost to Fresno by 5A-4, and to Sacramento by 3-4. They are now in Los Angeles, and will play Showa on their return north before their departure from this port for Japan.

"The camera which I received from you (for getting subscriptions) surely does take nice pictures. Thank you very much."

"Now I belong to three Junior Clubs, the Junior Club of San Francisco (ours) and the San Jose Girls' Club. I think every one of these Clubs is just wonderful."

"If the Junior Section isn't getting more interesting every day!"

We thank you ever so much, Dorothy. All of us like to be encouraged. It helps us to do better.

RUSSO-JAPANESE WAR BULLET FOUND IN VETERAN'S NOSE

Special to The Japanese American News
TOKYO, August—It was 25 years ago that a Russian bullet lodged in the face of one Asachi Yuasa, who as a reserve First Class soldier of the 23rd Infantry Regiment, Kumamoto, fought at the battle of Shao-hua in the Russo-Japanese War. A hostile bullet struck his face, right underneath his eye and entered his nose and lodged there. SHOTWELL IS S. F. VISITOR

To Head U. S. Delegation
To Parley At Kyoto

Important problems of the Pacific basin will be discussed at the coming October Institute of Pacific Relations, declared Dr. James T. Shotwell, research head of the American delegation of 40 to attend the Kyoto meetings, who is in San Francisco.

"Doubtless the biggest problem in the Pacific is the relation of food supply to population," he said. "Research studies have been made into this phase by Dr. Carl Alberg of the food research laboratory at Stanford. This is particularly pressing in Japan and of China."

Other matters that will be discussed at the Japanese meetings, according to Dr. Shotwell are:

The setting up of machinery to carry out the terms of the Kellogg pact in the Pacific;

The preservation of eastern culture in the face of the penetration of Western industrialism;

Racial problems from a scientific viewpoint;

Tariff problems in China and the settlement of the extra-territorial question.

The Russian-Manchurian crisis is not scheduled for discussion, al-

though, says Dr. Shotwell, it may come up by resolution.

U. S. BUSINESS MEN GROUP
TO TOUR JAPAN IN FALL

KOBE, Japan, Aug. 12.—A party of American business men will leave Seattle this fall for an extensive tour of Japan with the view of acquainting themselves with possibilities of trade expansion in that country, it was learned here through a dispatch from Showa.

The party leaves Seattle on September 7 aboard the American Mail Line, President Grant, and will arrive in Yokohama on September 21. These American tourists will go to Tokyo the next day and remain there until September 27. Then they will proceed to the chief industrial and cultural centers of Japan.

According to the plans now being formulated in Seattle and reported to the local branch of the Dollar Steamship Company, the party will be organized by the Washington State Chamber of Commerce to the East and Far East with specific object of making intimate study and analysis of industrial, financial and general business conditions of the Oriental countries. The travel arrangements will be taken care of by the American Mail line and the American Express Company.

In Japan the visiting American business men will be brought in close contact with the Japanese and American Chambers of Commerce in Yokohama, Tokyo, Kobe and Osaka, while similar bodies will be introduced to them in Peking and Shanghai. While their itinerary is

being planned with the view of allowing the travellers the opportunity to see as much as possible of the business, industrial and commercial phases of the countries to be visited, many scenic and pleasure resorts are also included.

The pamphlet being distributed to prospective members of party goes on in part to say of the cruise:

"You are aware that tremendous commercial changes are now taking place throughout the Orient—changes of such an important character that within the next decade or two they must materially affect trade routes of the whole world. This is only to be expected when five hundred million people commence to demand modern equipment in their factories, their farms and in all their modes of life."

"Hence this Washington State Chamber of Commerce business trip to the Orient—that we may make close-up studies, first of Japanese and Chinese requirements to the end that we may largely increase our export trade; and secondly, that we may investigate Oriental raw materials and manufactured products that can be used America and when, which, when purchased, will tend to win us friendship and equalize trade balances on the Pacific."

"The fullest possible support and cooperation is also being listed from U. S. Commercial Attachés, Consuls-General and Consuls throughout the Orient. In this way, direct personal contacts will be established between the Washington State Chamber of Commerce party on the one hand, with the highest government officials of both Japan and China, and with the outstanding Oriental industrial, financial and other leaders on the other hand."

"Specially conducted inspections will be arranged to cover important Oriental manufacturing agricultural, fishing, lumber, mining and other industries; financial institutions, power centers, active and potential, government departments, shipbuilding plants, steamship and railway services and all the mechanism that has to do with trade and commerce in the countries visited."

"From Tokyo the party leaves for

CONCORD TO HOLD PICNIC FOR MIDDIES

Officers and Sailors
Will Also Visit
U. C. Campus

Special to The Japanese American News
CONCORD, Aug. 15.—A mammoth picnic will be held at Alamo by the Japanese residents of Concord county on Sunday in honor of the men of the training squadron which arrived Thursday afternoon in San Francisco Bay.

The officers and sailors will arrive at the University of California at 9:30 o'clock and after going through the campus will leave at 10 o'clock.

Then will proceed to Carquinez bridge down San Pablo Ave. and pass through Martinez and then go directly through Walnut Creek to Alamo.

They will return by way of Hayward to 7th street S. P. Station after the picnic, according to the press plan.
