A long discussion followed these two talks.

At this meeting the members decided to hold circular lecture meetings at the various towns in Central California.

Fresno Citizens to Conduct Drive for Membership in Apr.

Special To the Japanese American News  
FRESNO, March 21—President-elect Fred Yoshikawa presided over the regular meeting of the American Loyalty League of this city last Saturday at the local Japanese Association Hall.

Harvey Iwata, the past president, donated \$10 in commemoration of his recent marriage. The club also received an invitation to Mr. Iwata's reception, to be held at the Hospitality Center on Friday night, March 21.

The members also decided to acquire engraved stationery for the club. In order to restrict membership, it was decided that those members who are absent from three consecutive meetings without adequate reason and without paying dues for three months will be withdrawn from the club. There will be a membership drive beginning in April and lasting until May. The winner of this contest will be awarded a merchandise certificate worth \$7.50, effective at any Japanese store in Fresno.

The project of entering a decorated car in the Rainier Day parade was discussed. H. Arie was appointed chairman to look further into the matter.

As the foreigner stepped in, the scholars stopped reading and the room was silent. That made the teacher angry. He brought down his rod with a whack on the desk. Again all began to read away at the top of their voices.

The teacher stepped forward again and the room was dead silent once more.

The teacher became furious, and struck the nearest boy with the rod and stamped on the floor, while the boys all shouted at the top of their voices.

The teacher apologized to the American stranger for having such very ill-mannered students. It was their business to learn page by page.

The story about the Chinese school is interesting, isn't it? No doubt Ruth has learned about such schools from somebody who knows of them. I do not know much about them myself. But I do know that the Chinese people whom I have met have not been, it seems to me, of a sort to use a rod on children. Probably this was a specially cross teacher. Of course many schools in modern China are not like this one, but probably a great many still are.

Everybody is welcome to comment on stories or other things that other members write. In this way we may be able to help each other.
