SAC'TO WINS IDA CUP IN SUMO MEET

Takes 23 Matches in Title Tourney at San Jose

SAN JOSE, April 28—Winning twenty-three matches in two series of contests, the Sacramento "rishi-shis" duplicated their feat of a year ago and won the Northern California sumo tournament here on Sunday.

San Francisco placed second with 16 victories and San Jose third with 14, while Fresno took seven matches. Monterey did not send any representative.

The Sacramento team was awarded the Consul General Morikazu Ida trophy, which will become their property for permanent possession if they win it again next year.

Hatsunobori of Sacramento scored the highest by winning all of his six matches. His team-mate, Asahiyama, was second in rank with Ryumonzan of San Jose. They each won five matches out of six. San Francisco was represented by a well balanced team, which was able to take the second place without any outstanding star.

In the morning, Tamotsu Kikugawa of San Francisco made a sensational clean sweep in the boys' "yonin-nuki." Other outstanding winners in this division were Yamamoto of San Jose, Minoru of San Francisco in "yonin-nuki," and Owasaki of Monterey and Kifune of San Jose in the "tobiri gonin-nuki."

Tamoye, Ito, Yamaoka and Marumoto were winners in the boys' "yonin-nuki" staged for the San Jose group in a special preliminary contest.

Over 1500 people are said to have witnessed the contest.

FRESNO DOWNS YAMATOS 8 TO 7

DO'S TIMELY DOUBLE IN 9TH FAVORS FRESNO

FRESNO, April 28—Fresno celebrated its Rains Day with an 8 to 7 victory, snatched in a last minute rally, against the strong Stockton Yamato nine at the Japanese Ball Park here on Saturday afternoon.

With veteran stars like Nishida and Mirikitani on the invading lineup, and Teikimura and Iwata on the home squad, the game was a most colorful affair. The batteries were Hanada and H. Yoshikawa for Fresno; Nakahara and Okada for Stockton.

The invaders started the fracas with a bang with three runs in the opening canto and two in the third. Fresno, on the other hand, scored two in the fifth and four in the seventh.

The tie score in the eighth was broken by the home team in the last inning. Doi hit a double bagger, and a timely safety by Yoshikawa brought in Doi.

The outstanding hits were Do's two-baggers; Kebo's home run, Yamazaki's three bagger, and Teikimura's and Okada's double baggers.

In the field Teikimura was peerless. Stockton made four errors, and Fresno three. The locals also made thirteen hits and Stockton eleven.

Score by innings:

Stockton 302 002 000—7
Fresno 000 020 411—8

DIET RAISES LEGAL ROW

Premr. Charged With Usurpation of Constitution

SPECIAL TO THE JAPANESE AMERICAN NEWS
TOKYO, April 28—Dr. Takuzo Hanai, a member of the Lower House, today questioned the Premier on a constitutional matter which may rock the present Cabinet and diminish its prestige in the Privy Council, the body whose sanction is necessary for ratification of the London naval treaty.

Hanai, with a brilliant stroke of legal strategy, declared that the Government was violating the Constitution when the Premier, without formal approval of the Emperor, takes the office of Gen. Ugaki, Minister of the Navy, who is now laid up with illness.

Hanai then proceeded to attack the government, declaring that its sanction of the London naval pact against the will and over the head of the Naval General Staff is clearly an usurpation of the rights of the authorities in charge of national defense, who are in the final analysis responsible only to His Majesty, the commander-in-Chief of the Army and Navy.

Premier Hamaguchi will call a special session of the Cabinet to consider this latest phase of constitutional struggle.

NIPPON SET TO OBSERVE EMPIRE DAY

Sumo Meet in Palace Ground and Parade To Occur Today

SPECIAL TO THE JAPANESE AMERICAN NEWS
TOKYO, April 28—There will be a brilliant military parade on the Yoyogi training field and a wrestling tournament in the Palace grounds tomorrow in celebration of the birthday of His Majesty the Emperor.

The sumo matches will be participated by over twenty champions all above the rank of Makushiochi of the Tokyo Sumo Association. The two Yokosuna wrestlers, Miyagiyama and Tsunenohama, will also appear.

DIRECT DESCENDANT
TOKYO, April 28—(UP)—All Japan tomorrow will celebrate the national holiday of Tencho-Setau—the 29th birthday of His Majesty the Emperor, 124th ruler of the Land of the Rising Sun and direct descendant in the unbroken line of the Sun Goddess, Amaterasu-Omikami.

To Japanese their Emperor will be 30 years old tomorrow, although he was born April 29, 1901. In common with other Oriental Japanese consider a child one year old at birth.

Lantern parades and street demonstrations will be held throughout the country tonight and there will be elaborate patriotic exercises tomorrow, when business generally will be suspended. The Emperor and Empress will arise early and attend a number of functions including Shinto ceremonies before the sanctuary of the Imperial Ancestor in the shrine of Ohnoyoda Castle, the great most-enclosed palace which is the residence of the rulers in Tokyo.

FORMAL CEREMONIES

Formal ceremonies will be held in schools and government offices and members of the diplomatic corps, ranking officials and other dignitaries will call at the Palace to pay their respects to His Majesty.

The Emperor ascended the Throne of Japan December 25, 1926, on the death of his father, the late Emperor Taisho. He was formally enthroned in elaborate ceremonies held in the ancient capital, Kyoto, November 10, 1927, assuming his duties as head of Church and State, as well as commander in chief of the army and navy.

His Majesty seldom appears in public, but is described as in good health as are Empress and their two daughters, the baby princess Teru and Taka.

OFFICIAL CALLS

Prince and Princess Chichibu with other members of the Imperial Family will call at the Palace to pay their respects tomorrow, while the Dowager Empress, His Majesty's mother, probably will send one of the officials of her household, Prince Chichibu, as her presumptive in the absence of a male child to the Emperor and Empress, will be received with special honors.

The Constitution provides that only a male may ascend the throne.

Prince Takamatsu, the Emperor's second brother, is not in Tokyo having departed with his bride, the former Miss Kikuko Tokugawa, for England on the 21st. He will radio his congratulations from the steamer Kashiwa Maru on which he is sailing to Europe.

Tomorrow's festivities will be celebrated with special fervor by Japanese as it falls at the end of the Cherry Blossom season, which is a general period of wine drinking and merry making.

Interest to us.

Several of our members have been waiting to correspond with people at a distance. Here is another good chance.

As I type this the eclipse has begun. If any of you see it well, will you please tell us just where you were and how you looked at it and what you think about it? It is wonderful that astronomers could figure out beforehand just when and where it was to be seen, isn't it? They have to be very accurate people. I do hope that they are getting some fine photographs, so that they can learn some new things about the great sun.—Obasan.

Kobe Tram Strike Is Ended as all Workers Return to Their Job

KOBE, Japan, April 28—The Kobe tram workers' strike ended today when all municipal employees returned to work without condition. By this action they admitted complete defeat in their demands for redress of grievances. The Kobe strike was in the nature of a "sympathy lock-out" to support a similar strike in Tokyo, which also resulted in the capitulation of the workers.

CLUB HEARS RACIAL TALK

Prejudice Is Subject Of Speech Given by Berkeleyan

SPECIAL TO THE JAPANESE AMERICAN NEWS
BERKELEY, April 28—A stirring talk on prejudice and election of officers for the next term marked the meeting of the Berkeley Japanese Fellowship held at the home of Dr. Blaisdell, 23 Panoramic Way, on Sunday evening.

A supper was enjoyed by the members at 6:30 o'clock, followed by a period of community singing, led by Henry Takahashi. Miss Sumie Morishita next introduced Dr. Blaisdell at the regular devotional hour.

The speaker declared that prejudices are usually caused by either economic competition or social misunderstanding. To eliminate prejudice, therefore, it was necessary to encourage economic co-operation and cultural appreciation, he concluded.

At the business meeting later in the evening, Joe Omachi, a student from Loomis, was elected chairman of the club for ensuing term.

H. Kiyomura of Mountain View was chosen vice-chairman, Miss Lilian Iida of Salt Lake City, recording secretary; Miss Ruby Minami of Oakland, corresponding secretary; and Neal Nomura of Sacramento, treasurer.

The next meeting, which will be the last this semester, will be held on May 4 at the Japanese United Church on Channing Way. The speaker will be Dr. Fisher of the First Congregational Church.

37 JAPANESE REDS GUILTY

FUKUMOTO, SANO, ARAHATA TO BE TRIED IN TOKYO

TOKYO, April 28—Thirty-seven leaders of the Japanese Communist Party, arrested in the national roundup of April 16, 1929, were found guilty today at a preliminary hearing in this city. They will be formally tried before a court shortly.

The thirty-seven include Kazuo Fukumoto, founder of the so-called Fukumotoism school of communism. Fumio Sano, more commonly known as Gaku Sano; and Katsuzo Arahata, also known as Kanson Arahata, and others. Included in this group are also two communists who have died in prison since their arrest.

In the two national roundups of

an experimentation in this field. And yet, while America lingers along with its more or less fumigated lobbies, the following experiments are under way in Europe.

Germany has a Parliament of Industry supplementing its political parliament, the Reichstag.

Czechoslovakia has a similar body. Latvia has a similar body. Spain has a similar body.

The constitution of Poland provides for such a body.

The constitution of Jugoslavia provides for such a body.

The constitution even of tiny Danzig provides for such a body.

France maintains a National Economic Council as part of its governmental machinery.

REFORM OR BREAKDOWN

Italy maintains a council of consulting experts to advise its Ministry of National Economics, and the members of Italy's Parliament are selected from a list of 800 names suggested by the syndicates or organized bodies of employers and employees.

There is always a lag between the political forms and the practical functioning of the life of a people. Europe is trying to overcome this lag by bringing into government expert representation of the groups and forces that are really making the modern age.

There are men in Europe who know that it is now a choice between some such reform of government and a break-down of government.

It is still an open question whether the political leadership of United States will see, in time to prevent a serious collapse of governmental reality, that it is a choice between two alternatives.

JAPANESE IN HUGE RAISIN DAY PARADE

Six Girls in Kimonos Form Lovely Sight On Float

SPECIAL TO THE JAPANESE AMERICAN NEWS
FRESNO, April 28—Eight tiny Japanese girls, dressed in native costume, and resembling for all the world so many tiny dolls, featured the Japanese float in the twenty-second annual California Raisin Festival pageant parade held in this city Saturday.

This float entered by the Japanese Association of Fresno, contained Hisako Matsumoto, Haru Kawa, Yasuko Chado, Fuji Jutsumo, Tashika Nishimura, Sumiko Kawamura, Chiyoko Fujimura, Harumi Takayama.

Officers of the Japanese Association came next in a decorated car. They were K. Hasegawa, president; O. Nishimura, vice president; Y. Yamashita, treasurer, and K. Matsumoto, consul.

AERIAL PARADE

Pageantry which varied with the scintillating and colorful coronation procession of an oriental potentate unfolded as the parade passed in review to tell the story of California as the world's greatest, fairest and most varied playground, within whose borders the Empire of the Raisin and the state's market basket stands.

After thrilling at the preliminary spectacle of an aerial parade of forty-five airplanes and the appearance of the Fresno Bee-Brix Rubber Company, Goodyear dirigible, the throngs turned their attention to the outstanding event of the festival day—the pageant parade.

The 3-mile long pageant wound its way through the streets under a brilliant canopy formed by the varicolored flags and bunting which decorated the avenues of march and downtown buildings.

AWAIT ROYAL FLOAT

The royal float bearing Queen Harriet Brown of Fowler and King Charles W. Padlock, famed sprinter, were awaited eagerly by the thousands of royal subjects desirous of paying homage to their rulers of the day.

Chief attention was attracted to the twelve beautiful pageant floats, which depicted the Western Wonderland theme of the parade and portrayed the many favors that fortune has bestowed upon the Golden State.

During the afternoon events the Goodyear dirigible brought to Fresno by The Bee and the Brix Rubber Company, cruised overhead with Queen Harriet and King Charles as passengers. The royal rulers made their final appearance when they led the grand march at the annual Raisin Day Ball Saturday night at the Rainbow Ballroom.

THE WEATHER

TUESDAY—Fair and warm. Moderate westerly winds.

radicals, conducted respectively on March 15 of 1928 and on April 15, 1929, some 825 communists were arrested.

THE LOBBY COMES OF AGE

By GLENN FRANK

Several times during the last five years I have called attention, in these essays, to the fact that this increasingly complicated scientific and technical age is not finding its interests effectively represented in the parliaments, Reichstags, and congresses of the world—all of which were organized and their method of selecting representatives determined in terms of the needs of a far simpler, unscientific, non-technical age.

AMERICA LAGS BEHIND

On several occasions, in speech and in print, I have suggested the possible wisdom of creating a House of Technologists to supplement the two houses of the American Congress. This suggestion was, of course, nothing new to the students of political science or to any one who had been watching governmental development in post-war Europe.

There are, in my judgment, far more urgent reasons for American experimentation with governmental representation of "interests" as well as "areas" than there is for Europe.

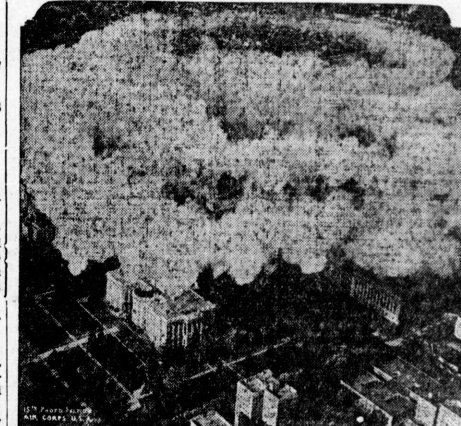

There is always a lag between the political forms and the practical functioning of the life of a people. Europe is trying to overcome this lag by bringing into government expert representation of the groups and forces that are really making the modern age.

There are men in Europe who know that it is now a choice between some such reform of government and a break-down of government.

It is still an open question whether the political leadership of United States will see, in time to prevent a serious collapse of governmental reality, that it is a choice between two alternatives.

Miss Toshi Koba Shines in Comedy Play, The Florist Shop, Presented by YWCA Girls in Their Annual Show

Los Angeles Girls Will Present Drama on Night of June 13

SPECIAL TO THE JAPANESE AMERICAN NEWS
LOS ANGELES, April 28—The play, "Friday the 13th," has been selected by the local S. O. F. Girl Reserves for presentation on Friday evening, June 13, at the Japanese Union Church. The proceeds will be used to send delegates to the Girl Reserve conference held annually at Asilomar.

Miss Toshi Koba, in the role of Maude, the sweet and winsome clerk, fairly stole the heart of the audience in The Florist Shop, the comedy play given by the local Y. W. C. A. girls in connection with their ninth annual benefit Saturday night at the Kimoon Gakuen auditorium on Bush Street.

Being a sentimental little Miss, Maude gives away orchids to a lowly spinster, who is engaged to a "beau ideal" for fifteen years without marriage. Then the mysterious orchids, sent anonymously, stir dire suspicion into the heart of the neglected Mr. Jackson, Miss Wells' fiancé.

There indolent love failed, impassioned resentment against the intrusion of those "mysterious orchids," succeeded, and they are married.

Miss Koba, in the role of the Good Samaritan and match-maker, carried her part with perfection. Miss Wells, the ever-hopeful one, was portrayed by Miss Mae Miyamoto with a wealth of human expression which drew the sympathy of the audience to her irresistibility. And the part of Mr. Jackson, the haughty and handsome lover who had been "too busy" for fifteen years, was given an adequate characterization by Miss Michi Nishida.

WELL SUPPORTED

Two others were in the cast. Mr. Slovisky, the proprietor of the flower shop who expresses with characteristic gesture his disapproval of Maude's extravagance, was given a skilful interpretation by Miss Shizu Sakai. And Miss Chiyo Omori was convincing in the part of Henry, the unsentimental and blasé clerk.

The play was coached by Miss Frances Hodges.

The feature play, Terakoya, a Kabuki shibui played in English in the modern manner, was presented by a good cast under the sympathetic direction of Margaret Shedd. The costumes and scenery were by Masao Mito.
