NEW MGR. OF NYK HOST AT BIG BANQUET

Expansion of Pacific Trade Favored by Seichi Nakase

Seichi Nakase, new manager of the branch office here of the Nippon Yusen Kaisha line, was host at a brilliant reception and banquet given Friday night aboard the M. S. Chichibu Maru in honor of some 100 leading officials and business men of this city, both Japanese and American.

Pledging himself to the advancement of international commerce in the Pacific, Nakase in his welcome address declared that the officials of the N.Y.K. line have realized that the economic pendulum has swung to the Pacific, ushering in an era of peace and friendly trade cooperation.

The affair was presided over by Robert Newton Lynch, head of the Foreign Trade Department of the Chamber of Commerce.

The speakers included John J. Cuddy, manager of the California Incorporated; Mr. K. Abiko, publisher and editor of the Japanese American News; Wallace K. Alexander, former president of the Japan Society; Paul Scharenberg, harbor commissioner; and Albert Porter, editor of the Shipping Register.

About 100 American officials and business, together with about thirty Japanese people, were in attendance at this reception.

Another banquet was planned for Saturday evening aboard the Chichibu Maru in honor of newspapermen and hotel managers.

Nakase was formerly chief purchasing agent for the home office of the N.Y.K. line.

Candidate for State Assembly Nomination In Plea for Support

Strong appeal for support from the new American citizens, or citizens of Japanese ancestry, was made Saturday by Attorney Kenneth B. Dawson, candidate for the Republican nomination for the State Assembly in the 32nd San Francisco district, the office now held by James Miller.

PACT ISSUE HOLDS TOKIO

Cabinet Wins Constitutional Point in Row With Navy

Special to The Japanese American News TOKYO, June 21.—In America the London Naval Limitations Treaty is being fought over pro and con, the special bone of contention of the moment being certain secret papers. In Japan the big subject of dispute was for a long time the question "Does the Navy have the power to pass judgement on naval matters such as treaty negotiations independent of the Cabinet?"

Not only was the Treaty ratification at stake, but the big issue was whether the Cabinet would be able to hold its own as representatives of the people, or the Navy would emerge as a powerful and independent branch of the government.

With the resignation of Kato, chief of the Navy General Board, that question was settled in favor of the Government.

Now the Government is pushing the question of the treaty as quickly as possible through the Privy Council before any other opposition arise. Plans are being made to call a meeting of the Privy Council before the members leave the capital for the summer.

If the Council ratifies the Treaty, Japan will be the first to formally accept the Treaty.

TOWARDS LIVING BEAUTY

By GLENN FRANK

No end of fun has been poked at me for suggesting in this column that the machine age is beginning to be sensitive to the claims of fillypant.

Filypant paragraphs have compared the haunting beauty of the Sistine Madonna to the gaudy colors of the colored advertising pages of the magazines.

I am willing to take these jibes, for I think they are pointless, and I am unshaken to say that it is out of these first futile clutches at beauty in our machine products that the machine age will one day realize a new beauty.

I commend these paragraphs from Edward A. Filele as showing a singularly clear insight.

"Art, to be a force in human life, must be alive. It must be striving for something which has not yet been attained."

"Greek art was beautiful because it was the expression of a living Greece."

"Had the Greeks contented themselves with the copying of ancient and accepted forms, they might have developed extraordinary technique but they could not have become the inspiration to the ages which they did."

BIG SUM FOR AIR BUDGET

Five Million Yen Per Year Program Made by Japan Navy

Special to The Japanese American News TOKYO, June 21.—Today the Navy presented a budget of 5,000,000 yen a year expenditure for an enlargement of the Naval Air Force. At the present time the Naval Air Force of Japan is only one-tenth the size of that maintained by the United States.

This proposed budget is a reduction on that proposed by the Naval Board during the recent dispute with the Government. The first proposal asked for the huge sum of about 200,000,000 yen to enlarge the air force.

This is one of the favorable signs of the change of attitude of the Navy Board since the resignation of Kanji Kato. Admiral Taniguchi, the present head of the Naval Board, has announced his intention of forming the policies of the Navy according to the London Naval Limitations Treaty.
