## L.A. JAPANESE GET PRIZES IN ART TILT

## GIRL MADE STUDENT GOVERNMENT SECRETARY

Miss Nishikawa is very popular at her school and with her experience and ability in secretarial work, she was easily elected.

## GOLD FISH TIME HERE

### Japan Fanciers Plan National Contest In October

Special To The Japanese American News TOKYO, June 26.—The busy time of year has arrived for the country's goldfish fanciers, for it is at this season that they must take up the painstaking task of breeding specimens to enter in the annual national contest which is held here each October under the auspices of the Goldfish Viewing Society.

Virtually all of the goldfish shown at the society's exhibition are of the variety known as ranchu, with overall-shaped body and no dorsal fin. It is sometimes known as the lion-head. The fish hatched at this season grow with amazing rapidity and by October have attained a length of from four to five inches.

## ENTHUSIASTICS

Mr. Kamekichi Ishikawa, a manufacturer of meshed-tooth fasteners, is one of Japan's leading goldfish enthusiasts and the Goldfish Viewing Society, an organization with 60 members, maintains his headquarters at the hatchery he operates in the garden of his home at Nishigahara, Takinogawa, a Tokyo suburb. His father and grandfather before him were also ranchu fanciers, and at his present hatchery he now brings out each year about 500,000 specimens, of which only a few develop well enough to be entered in the annual exhibition.

**SYMMETRY ESSENTIAL**  
"Symmetry is one of the essential requirements of a prize winner," Mr. Ishikawa explained. "The fish must have a magnificently masked face and a broad back; its back from neck to tail must curve gently like a woman's comb; it must have a large but symmetrical abdomen."

The goldfish is believed to have been brought to Japan from China in 1502, Mr. Ishikawa said. The ranchu variety, however, did not arrive until about 1640 and at that time was not as beautiful as it is now, having been developed to its present form during the Edo period. The fish will live for more than 20 years but Mr. Ishikawa has found that after 10 or 12 years they lose their beauty and grace.

## Reformed Church Summer School to Go on Picnic Soon

Last week the local Reformed Church Vacation School started with 95 children. This week there are 124 children attending.

A special program is provided for the pupils every Friday. Last week they enjoyed a delightful party in which they played different games and had refreshments of ice cream and cookies.

This week the entire school will go to the Golden Gate Park near 19th Ave. for a picnic on the 27th, Friday. A special Municipal Railroad car will leave the corner of Buchanan and Geary streets at 9:25 a.m. and carry the party through the new Judah street tunnel to the park. The return trip will also be made by means of a special car leaving the grounds at 2:15 p.m. Parents are welcome to accompany the party.

The children are being taught Bible stories, memory work, handwork, Bible dramatization and supervised play. This year the school is in charge of 8 teachers and 7 helpers. Especially fine work is being done and the entire handwork and other class work will be exhibited at the closing program of the school to be held on Sunday evening, July 6.

Betty's family is large but Aunt Mia's family of nieces and nephews is much larger, isn't it? Here is a letter from a far off place. Yoshiko Ariki of 1954 Larimer St., Denver, Colorado writes to greet her new auntie.

## WELCOME TO THE JUNIOR SECTION

"Welcome to the Junior Section. Aunt Mia if I could really come to San Francisco to see you or you could come to Colorado, I would be so happy. Am writing these few lines just to become acquainted with you and maybe see you someday. (Aunt Mia would love to see you and all the rest of her nieces and nephews. Now that we are acquainted, Yoshiko, Auntie hopes that you will write often.)"

Shizue Kawahara of 1022 West Ave., Oakland, Calif. writes a teeny teeny letter from San Leandro and says, "I will be writing again Aunt Mia for I am now busy helping my father on the farm." (Aunt Mia thinks that it is wonderful that you can help your father. Write to us soon, Shizue, and tell us about the lovely fruits and vegetables of San Leandro.)

Prize winners of the Aunt Mia contest, if you want rings please send in your finger size. Of course the rings and pins will not cost you anything! They will be Aunt Mia's present to you for being the first to guess the meaning of her name.

There are many of us (including Aunt Mia) who cannot go anywhere for a vacation this summer. So let's make a bargain! Those who do go somewhere for the summer could share their fun and experiences with the rest of us who cannot by writing and telling us about them. And those of us who have to stay at home can in our turn find good jokes and riddles to put in our column.

## 35 Barbers, Laden With Pesos, Return From Short Stay in South America as Tonsorial Experts from the Orient

Special To The Japanese American News YOKOHAMA, June 26.—Thirty-five barbers with 30 children returned from South America on board the S. S. Rakuyo Maru today with their pocketbooks quite heavy with "pesos."

Each barber is said to have brought back about several thousand yen a piece.

Among the returning tonsorial experts was one Mrs. Etsuko Yamada who came home rich with 15,000 yen in her purse. Said she: "The people over there know what good barbers Japanese are. We finish up one head in five minutes, and they seem to be quite satisfied."

## AZUMA CITY OF TOKYO IN ST. LOUIS AFTER BIG STORM

Special To The Japanese American News ST. LOUIS, June 26.—Zensaku Azuma reached St. Louis at 4:55 p.m. Wednesday afternoon under bad weather conditions.

Reports from New York state that talks and movies are featuring Azuma and his plane. Much interest is being evinced by the New York public.

KANSAS CITY, June 26.—Flashing like a silver streamer through the air the City of Tokyo flew into this city at 11 a.m. Wednesday and landed at the Fairfax Airport.

In speaking of his flight to Kansas City from Wichita, Zensaku Azuma, the undaunted Japanese flier on the first lap of his eastward flight to Japan, said, "It took me three hours to make the 160 miles between Wichita and Kansas City on account of a sudden windstorm. After I left Wichita I had a very nice trip about 150 miles. Then all of a sudden I met a terrific wind storm. I imagine it was one of those famous Kansas gusts."

"I fought the storm for about one hour and twenty minutes. Finally I ran out of the storm belt and landed safely. The only damage caused by the storm was the loss of a crank pin."

## ENJOYS SCENE BELOW

"In the calm after the storm, I had a chance to look below me and enjoy the scenery of the great corn belt and the shining Mississippi. Kansas City is one of the most beautiful cities that I have ever seen."

Shortly after noon the City of Tokyo soared away for St. Louis.

## JUNIOR AND SENIOR CLUB

Hello, Florence! Club members, this is Florence Miyake of 2908 Fourth Street, Sacramento, Calif. She is 8 years old and her birthday is on December 5. She is going to be our Junior member from now on. Here is a nice letter from Betty Miyata of P. O. Box 566, Westmorland, Calif. She says, "I am very glad to meet you. I hope that you will have a nice time being editor of the Junior and Senior Club (Aunt Mia is having a grand time!)."

"Aunt Mia, just think! The cantaloupes, tomatoes, etc. were not good on account of the mildew so we cannot go anywhere for vacation. (That was too bad, Betty. Aunt Mia understands because she, too, lived in the country before. Anyway, you can have a good time at home on the farm, couldn't you?)"

"My graduation was on May 23. My brother Fred graduated. Next year my brother Roy will graduate."

## PARTY GETS A. B. DEGREE IN ONE EVE

### Gay Fresno Fete Has College Courses Gives Awards

Special To The Japanese American News FRESNO, June 26.—What is known as a very unique "weenie roast and swimming party" was given by the Reedley Fellowship and the Fresno Epworth League in honor of the high and grammar school graduates of the four organizations of the Fresno County at Reedley Beach on June 22.

The whole afternoon and the evening's program was in the form of college classes.

As the guests gathered, they were registered into the "College." At the first assembly, announcements and general instructions for the day were given.

Immediately following it, with Miss Edna Wake as instructor, the English Literature class was called. Here the group found themselves in a pretty bad fix, as many catchy questions on Shakespeare's plays were asked.

To even up the difficulties of the Literature class, instructor Shig Matsuyama next gave ten simple questions in history.

## SWIMMING

The cool shade, which acted as the classroom, was soon abandoned when William Wake took charge of the next class—the Physical Education, proved to be the most popular one. Those who preferred the water went in swimming and canoeing; other had an amusing time on the shore, watching those who attempted to ride the canoe for the first time. Occasionally, "Land-fights" were staged, with the final result of many who were on land getting almost as wet as those who went into the water.

The students now moved on to the Home Economics class, with boys as well as girls participating in guessing the names of different kinds of cake that fit the statements given out by the instructor Shigeko Sakamoto.

## INTELLIGENCE TEST

An intelligence test in Psychology, given by Miss Misao Matsuyama, resulted in the following phrase: "Hey, the Soup's On!" The students thus followed the instructor who led them to the "weenie sticks" and "eats," which were the final examinations. A blazing bonfire was made, and each began roasting his "puppies." They ate hot dogs and salads until their poor "tummies" said, "No more."

By this time it was dark everywhere save the bonfire; thus, the merry-makers sat about the fire and enjoyed the Baccalaureate service where congratulatory speeches were delivered by Miss Edna Wake of the Reedley Fellowship and Miss Misao Matsuyama of the Fresno Epworth League.

The Rev. K. Yoshioka of the Fresno M. E. Church addressed the graduates, as the Devotional Speaker.

At the commencement, prizes for the two who had attained the highest averages in the afternoon classes were awarded. To the honored graduates, diplomas granting such degrees as Doctor of Kind Deeds, Master of Cracious Heart, etc. were given.

The party came to a close after the reception at which time delicious home-made ice cream and cakes were served.

There are appointments to be kept. There is a daily train to be caught. There are letters to be answered. There are telephone calls to be answered. There is counsel to be got and given.

There are crazy questions to be answered.

There is health to be looked after. "When all these things have been competently dealt with," said John Drinkwater, commenting on some such list of daily doings as this, "our citizen has very little margin of attention for tariff or drink reform, or for abstract problems of hygiene or patriotism. And yet there is some margin, and it is activity within this margin that finally decides the progress of the world."

Adult education is designed to keep the citizen awake and informed in this margin spare time, for if Norman Angell is right in saying democracy is run on the barber's spare time, we want the barber to be bright.

Sergeant R. O. Hughes of the detective bureau of the San Francisco police station declared in an interview with the Japanese American News that the Japanese residents of this city seem loath to report crimes to the police.

The police detective asks the Japanese residents to report immediately any crime to the Bush street station. "Call Davenport 6220 and ask to connect up with the Bush station," he said.

The above request was made when the detective noticed the fact from a confession made by a certain negro, one Brown, of ransacking the Japanese community recently, and which brought only a few reports from the Japanese about the robbery.
