FROM all over northern California bronzed, wiry athletes are beginning to pour in for the big J. A.A.U. Track and Field meet to be held this Sunday at the old stadium at the Golden Gate park.—Over at the jeweler's inscriptions are being put to gleaming trophies to be won by some hardy warriors or clubs. Before and after school or work, aspirants are hard at work and sports fans are busily wagging their tongues in possible conjectures as to the strong teams.—And we, even stolid, staid, typewriter-pounder, feel a thrill of something or other running through our veins as we look on.

—00—
The local U. S. Immigration bureau advertises for a woman with a knowledge of Japanese to serve as matron on Angel Island upon satisfactory passage of a Civil Service examination. Down South, we understand there are several Japanese Americans who successfully passed Civil Service examination and are now holding responsible government positions.—And why not? Why not more of us?

TONG WAR! The Tong men, whoever or whatever they are, are said by local newspapers to have come to town to settle the Chinese laundry strike by violent methods.—Sounds exciting, thought we. So we drove through Chinatown this morning only to find it smoldering comfortably like any other peaceful community. The only excited persons that we could even think of under the circumstance were the possessors of dirty collars, shirts, socks and things that need immediate washing.

—00—
The Grape Control Board is again talking about wiping out the surplus to prevent what has happened for years in the past,—the overloading of the market.—Yes, we agree perfectly. One of the chief means of improving the grape situation is to cut down production.—But just try and do it! Who was it that said, "Hope springs eternal in the human breast," or words to that effect? Well, that more than applies to the farmer who is invariably firm in his belief that this crop is the one and only crop in the universe.

WAKABAS COMING DOWN

The Sacramento Y.M.B.A., more commonly known as the Wakabas, is bringing a team this year which should be considerable stronger than last year. The same can be said of San Jose whose relay team has established time which is capable of remaining "as is" for quite a while. Their big gun is of course, the well known Mr. Lester Suzuki, rest of San Jose Teachers' college. He is sure to garner 15 points starting from 800 up. Just watch!

Mountain View will enter a strong team—this being its first attempt in the J.A.A.U. and they will be depending upon Henry Kiyomura and Roy Tsuruda to do something that they could write home about. From Sonoma comes a one-man team, having seen many great one-man teams, we have great respect for him. Look out for him Sunday—his S. Ono, representing the Sonoma Y.M.A.

Tomorrow we will publish the various heats to be held Sunday morning. All participants are requested to be at the grounds on time, otherwise they must forfeit their position.

MANI RELAY TEAMS

This year, since so many relay teams are entering in the competition, we are going to award points to the first four places on the basis of 5-3-2-1.

In closing, we would like to thank all the teams that are traveling to San Francisco to make this third annual J.A.A.U. Track and Field championship a success and serving as great impetus to Japanese athletic endeavors in this region. We are sure that their efforts will be well rewarded. Now, may the best team win!

JUNIOR AND SENIOR SECTION

"Lo, everybody! It's a dark, bleak, and dreary day, dears. Come! Let's gather and warm ourselves with loving chatter! Here is Lo of Sacramento. As usual she has many beautiful thoughts to express in her own beautiful way.

"Dear auntie, Wordsworth once spoke about 'Thoughts that do often lie too deep for tears.' I think he must have known that some day all of us would feel like that. When we read about the rosesbushes winging their way north and south, one for Kay and the other for Dorothy, dearest aunt, all that we felt was beyond the power of mere words. It suddenly seemed that life was infinitely sad but infinitely beautiful, too. You didn't tell us who thought of it, but that doesn't matter to me. What does matter is that SOMEBODY DID think of something so wonderfully lovely, and just to know that is enough—it makes this tired old world sing again, but with a sad, poignant beauty for—'The sweetest songs are those that tell of saddest thoughts.'

"But the world is happy even when singing songs that are sad and sweet, and it is enough for us to know that it is singing—again—the old faith comes smiling back, and we know that, after all, this temperamental world of ours is inherently good. And YOU know, auntie, how nice it is to know that. (Yes, niece o' mine, there really is such a thing as an 'infinitely sad, but infinitely beautiful' experience, isn't there. Our big, jolly, tender, loving family has just had such experiences. We will no doubt hear them from time to time, for that is life, and we will grow deeper, more
