FRESNO NINE WINS OVER STOCKTON

Yamato Defeated in Exciting Game by 7-4 Score

(Special to Japanese American News) STOCKTON, June 23.—In the feature baseball game of the season, the Yamato A. C. went down to defeat at the hands of the visiting Fresno nine at Yamato ground Sunday afternoon by a score of 7-4.

The difference in score however does not indicate the closeness and excitement of the game. Fresno started the scoring in the 4th inning, netting three runs, while the Yamatos came back in the last half of the same inning and scored their first run on Oakada's two bagger, and an error by Fresno's first baseman. With Fresno leading 7-4 in the 7th inning, Yamato twice filled the bases, but Murashima and Sakai, with tight defense behind their good pitching, checked the Yamato batsmen in the pinches.

Murashima pitched a nice seven hit game and struck out 10 batters for the Yamato, but four costly errors and a couple of had plays at the home plate spelled defeat for the home team. Murashima, Fresno pitcher also allowed seven hits, and with perfect support, managed to breeze through until the 8th, when he was relieved by Sakai for the balance of the game.

Yamato will encounter Fresno at Fresno on July 12 for a return game. Score by inning:

	R	H	E
Fresno	000	310	030-7
Yamato	000	100	021-4

Batteries: Fresno — Murashima, Sakai and Yoshikawa. Yamato — F. Murikanti and Okada.

50 Enjoy Social Given in San Martin

(Special to Japanese American News) SAN MARTIN, June 23.—Approximately 50 persons were present when the local Y.M.W.B.A. tendered a party to Japanese graduates from various educational institutions last Saturday evening in the social hall of the San Martin Buddhist temple.

In the room, beautifully decorated with streamers of blue and white, the guests enjoyed one grand evening playing games. "Ogochiso" and delicious refreshments were served by the Y.W.B.A. girls later in the evening.

Much credit for the success of the social was due to the capable chairmanship of Edward Takahashi, and to Miss Kamenno Tsurumoto, social chairman of the Y.W.B.A. who took charge of evening's entertainment, and to S. Iwasaki, in charge of games.

U. S. INTERESTED IN CHINA TRADE BUT JAPAN AND BRITAIN LEAD FIELD

By UNITED PRESS SHANGHAI, June 23.—The United States has investments totaling \$200,000,000 in China, including loans to the Chinese government, according to a survey that completed by Professor Carl F. Remer, of the Department of Economics of the University of Michigan. Dr. Remer has spent six months in making his survey.

American investments in China are much less than those of Great Britain and Japan, Professor Remer found. These two countries have each an investment of almost a billion dollars in China.

FINANCED BY N. Y. COUNCIL Professor Remer's survey has been financed by the Social Science Research Council of New York City, and has been carried on here and in the United States for the past three years. He has collaborated with investigating committees in the United States, Great Britain, Japan and China.

Approximately two-thirds of the great Japanese investment is in Manchuria, in the South Manchuria railway, the Dairen leased area, and

the Fushun coal-mines.

The foreign obligations of the Chinese government are comparatively small, the survey shows. They are only one-third of the direct foreign investments in this country.

A great invisible credit item in China's credit balance is revealed by the survey. This is money remitted by Chinese abroad to relatives in this country. Whole villages near Swatow, in South China, are being supported by Chinese in Siam. Chinese in the Philippines are supporting villages in Amoy. Chinese in America provided the money to build schools, roads and railways along the coast of South China. During the past three years, Chinese abroad have sent approximately \$300,000,000 (silver) to South China.

FOREIGN CAPITAL WELCOMED Professor Remer believes that the most significant development in China in the near future will be the government's attitude toward capital from abroad.

If the government tolerates, or encourages, private enterprise, Professor Remer believes that will prove to be the most stable source of fu-

ture capital. The attitude of the government on this point is still in doubt.

Some Kuomintang leaders feel that China is in the same position that the United States was a century ago, and cannot get far economically without attracting large amounts of capital investment from abroad. Others feel that foreign investments are dangerous and should be curbed as much as possible.

COMMUNIST ATTITUDE The question remains unanswered which of these factions will prevail. Many Chinese, who are not Communists, feel that foreign capitalists are a menace to their country. If their attitude dominates the government, it is unlikely that investments from abroad will be encouraged.

Professor Remer came to Shanghai in September, 1930, and has visited several cities in making his survey. He had previously lived ten years in the Far East, and wrote two books on China, "Readings in Economics for China" and "The Foreign Trade of China."

VACATION DAYS ARE SCHOOL DAYS

Vacation days are school days for these little tots at the San Francisco Japanese M. E. Daily Vacation church school — and mighty pleasant school days for them at that, if their smiling faces are of any indication!

Though only a handful, the teaching staff of the M. E. vacation school, headed by Miss Sumie Morishita, superintendent, is now diligently and earnestly giving lessons in sewing, cooking, manual training, paper-folding, and other studies, much to the delight of the little tots attending the school.

The school which opened on June 8, will continue until Friday, July 3. The little boys and girls are today enthusiastically planning to present a big program at the closing exercises. There will be a pageant and other entertainment, coupled with exhibition of their own handicraft on that night.

Every Friday is a surprise day for these children. Last Friday they received big bags filled to the brim with all sorts of candies. And how they chattered and smiled with glee as they skipped and romped back home!

Miss Dahlia Muramatsu, assisted by Miss Kiyu Enomoto, is taking entire charge of the kindergarten class, while Miss Yasuko Kusunoki, in charge of the junior class.

The older girls of the school are being taught cooking and sewing by Mrs. Tadashi Tsuda, seen in the last row of the picture; and the older boys are taught how to make airplanes, bookbinder and other useful things by Hisashi Moriyama. He is being assisted by Miss Grace Takahashi, student at the National Training school.

Japan-Born Child Granted Admittance to U. S. on Appeal

Three-year-old Utaki Kawaguchi may enter the United States, according to the ruling of the Department of Labor received here Monday. The child, who was born in Japan, arrived in San Francisco June 3 on the liner Tatsuta Maru, accompanied by her mother, Mrs. K. Kawaguchi. Local immigration officials denied her admittance on the ground that a child born abroad of resident alien parents temporarily out of the country must be brought back into the country at the time of the parents' first return. Utaki had been left behind in Japan while her parents returned to America, and was brought here on the occasion of Mrs. Kawaguchi's return from her second visit to Japan after the birth of the child.

The case, on being appealed to the Department of Labor, was decided on June 19 in favor of the child, according to advice received by the local authorities Monday.

HOOVER MORATORIUM PLAN BOOSTS JAPANESE MARKETS; DEPRESSION END PREDICTED

(Special to Japanese American News) TOKYO, June 23.—The Japanese government has officially decided to approve President Hoover's proposal for a moratorium on intergovernment debt payments. The decision was made at a special cabinet meeting held here today. Under the proposal, Japan will forego the receipt for one year of about \$6,300,000 due from Germany as this year's payment on Japan's share of the World War reparations.

Although the American president's proposal, which would suspend the payment of European war reparations and inter-allied debts for one year, does not affect Japan directly, anticipation that the move would greatly improve the world economic situation in general stimulated every market in Japan today. Stock exchange quotations displayed unexpected buoyancy; cotton yarn opened at the highest figure known in months, while raw cotton, silk and rice prices also zoomed upward.
