By K. K.
TODAY'S news brings another proof of the unreliability of stories of happenings in Japan as reported in the American press.

When Pangborn and Herndon, American aviators, were arrested in Japan for taking photographs of fortifications from the air, American newspapers generally played the matter up as to make it appear that the Japanese laws were absurdly strict and that the Japanese authorities were unnecessarily harsh.

But an American visitor to Japan, just back with the news at first hand, reports that the aviators brought the trouble on themselves by deliberately flaunting the authorities and taking a "smart aleck" attitude, and that considering the circumstances, the penalty meted out to the aviators was extremely lenient.

UNFORTUNATELY, some American youths seem to take the attitude that to flout the authorities of foreign countries is "being smart." Richard Halliburton, demi-god of the romantic adventurers of America, proudly brags how he tried to slip by the Japanese immigration authorities by pretending to be a diplomatic messenger, and how he tried to grab superior accommodations on Japanese trains while holding a third-class ticket.

Such conduct can only serve to put Americans in a bad light in Japan and give Americans a reputation which they do not really deserve. It is to be hoped that such incidents like the Pangborn-Herdon case will never occur again.

New Echo Club Group Opens Social Season With Pot-Luck Supper
A sumptuous pot-luck supper was enjoyed by the newly organized Y's Echo members at the Japanese Y.W.C.A. on Sutter street Monday evening, opening up the club's social calendar for this season.

The Y's Echo club was organized recently by those who have just graduated from high school, and the group comes in between the Silver Echoes and the Golden Echoes, Miss Miho said. Miss Yoshi Morioka is the president, and she is being assisted by Michi Nishimoto as secretary-treasurer, and Miss Yoshiko Ota, service chairman. Nine members compose the organization.

Calendar for this week at the Y.W.C.A. is announced as follows: Tuesday, board meeting; Wednesday, Golden Echoes; Thursday, Blue

NEW YWCA SECRETARY TO ARRIVE

K. Mukaye Scheduled to Succeed Sumi Miho

The recent appointment of Miss Sumi Miho as secretary of the local Japanese Y.W.C.A. is merely temporary, according to an announcement made by herself yesterday. Miss Marian Kimi Mukaye, formerly of Los Angeles and at present instructor in English at Doshisha university in Kyoto, will take over the post later.

Miss Miho, who is filling in until the arrival of Miss Mukaye, started her work early last week upon the departure of the preceding secretary, Miss Sumi Yamamoto, who is now at her home in Idaho preparing to her coming marriage with Sterling Takeuchi, research assistant in political science at the University of Chicago.

When interviewed on her views about her new work, Miss Miho replied: "haven't as yet come to the point of enjoying my work, but am learning to get along with my new work here fairly well."

Miss Mukaye, the new permanent secretary, is expected to return to this country sometime next June to take up her new duties, her contract with Doshisha university forcing her to remain in Japan until then.

Miss Mukaye is a graduate of the University of Southern California, where she majored in sociology. During her student days, she was active in campus Y.W.C.A. activities and held several offices in the Southern California Chapter of the Japanese Students Christian association. She is incidentally an accomplished pianist.

When Miss Mukaye was asked to put Americans in a bad light in Japan and give Americans a reputation which they do not really deserve. It is to be hoped that such incidents like the Pangborn-Herdon case will never occur again.

Saku Baba, Local Pianist, to Return from Japan Soon

Miss Saku Baba, a young second generation pianist who bloomed forth in San Francisco, who has been creating a sensation in the Orient on her present tour, is reported to be returning soon to her native country with her teacher, Mrs. Edith T. Kawasaki.

Plans are being made in Tokyo now to give farewell recitals before Japanese as well as American audiences. Miss Baba left this city with Mr. and Mrs. Torao Kawasaki, formerly connected with the San Francisco Japanese Consulate-General, about two years ago.

"IS LYRICAL, GENTLE"
Mr. Ushiyama, foremost music critic in Japan, commenting upon Miss Baba's concerts, wrote in the Tokyo Asahi:

"At her concerts Miss Saku Baba played with fire and intensity, displaying a fine command of her instrument and great power which at times seemed to go beyond her years and experience. . . . giving a sort of stimulation to Japan's music lovers. Even in great pieces like the Pathetic Sonata and Rhapsodie she showed dynamic changes that are not inferior to those of men. She is at her best, however, in pieces with lyrical and gentle tempo, showing a sensitive musical mind. She interprets every mood of the composer with an understanding not often found in so young an artist."

"The fact that she has heard numerous famous musicians and that she is studying under a competent instructor is evident in all this. If she should play the poetical pieces of Schumann, Chopin and Liszt she would give a close rub to the outstanding pianists of Japan in point of poetical and lyrical beauty of the playing. . . ."

Y. SOGA PRAISES
Mr. Y. Soga in the Nippu Jiji wrote:

"Miss Baba's success is not merely her own success. It is safe to say that she blew the trumpet on behalf of second generation Japanese on the mainland and Hawaii. If I may be permitted to indulge in a little over-praise, I might say that I have always had confidence that the second generation Japanese effort they are not inferior to other races in point of brain power, ability and spiritual strength, and I am confident that they can maintain their unique prestige and class. And my faith is being increasingly strengthened."

2nd Quake Hits Japan
TOKYO, Sept. 22.—The second earthquake in 24 hours struck mid-Japan yesterday, adding 14 more to the death list of 11 reported yesterday. The prefectures of Saitama and Gumma were most heavily hit.

Seismologists at the Central Observatory predicted further shocks within the next few days.

JAPANESE TO LET SENATOR MAKE SPEECH

Heflin to Speak in Nippon Ball Park

By UNITED PRESS
FRESNO, September 22.—Senator Thomas J. Heflin of Alabama was here today, prepared to exercise tonight the freedom of speech several times denied him by city and county officials but granted by the Fresno Japanese association.

The senator will speak on "America at the Crossroads" before an audience expected to fill the 4000 seats at the Japanese ball park. In the last month religious leaders of many denominations joined forces effectively enough to have the city commission and the county supervisors bar Senator Heflin from the city auditorium, the Firemen's ball park and the County Courthouse park.

Sentence in Illegal Entry Case Postponed
The final sentence of Kiyono Nomura and Yuri Abo, charged with illegal entry into the United States, will be given this coming Saturday morning, it was declared by Judge Saint-Sure at the U. S. District court Tuesday morning. The final judgment was to have been passed Tuesday, but was postponed to allow time for further investigation by the judge. Attorney Guy Galden is defending the two Japanese women.

CLINIC PLANS BABY SHOW

Japanese Association to Reward Healthy Children

Backed by the enthusiastic support of the local Japanese residents, the health clinic being sponsored by the San Francisco Japanese association under the supervision of Dr. K. Matsumura is now planning to hold a "healthy-baby" contest in the very near future. Minoru Uyeda, secretary of the association, stated Tuesday.

The clinic was established more than three months ago and has been serving the community ever since, opening its doors at 1619 Laguna street to the general public every Saturday afternoon and evening. No charge is made for the service, and the secretary urges local residents to make use of this opportunity.

New Restrictions on Registration Deemed Necessary to Facilitate Handling; Tatsuno in Charge

No one under the second year of the second year in high school, and no unattached person is welcomed at the 1931 general assembly of the Northern California Y.P.C.C. slated to be held in Berkeley, October 16, 17, and 18—so stated in effect the announcement made recently by the executive board of the conference.

In explaining the situation, the announcement said: "In view of the fact that a large attendance, perhaps more than 500, is being expected, the executive board deemed it quite necessary to set down a few restrictions in the registration so that a more selective and unified conference may be had."

"Heretofore, all those interested in the conference despatched their tender age were received, but this year the age limit has been set at the second year in high school. . . ."

LEAGUE OF NATIONS ACTS TO HALT CHINO-JAPANESE CONFLICT IN MANCHURIA

Russia Shows No Alarm Over Japanese Advance

By UNITED PRESS
MUKDEN, Manchuria, Sept. 22.—(U.P.)—Japanese and Russian officials appeared today to be in agreement over the Japanese occupation of Mukden, despite reports from Harbin of violent Russian reaction.

The Soviet consul here was not disturbed over movement of Japanese troops toward north Manchuria. Japanese military officials said an arrangement had been made to halt the troops at the Sungari river and that they would not enter north Manchuria proper.

Japanese deaths in fighting at Changchun were placed officially at 180. There was no estimate available of Chinese casualties.

Telegraph lines were cut between here and Harbin, but service continued on the Chinese Eastern railroad.

SPECIE BANK BOMBED

HARBIN, Manchuria, Sept. 22.—(U.P.)—Chinese threw bombs at the Harbin branch of the Yokohama Specie Bank early today but the bombs failed to explode.

JAPAN TAKES RAILWAY
CHANGCHUN, Manchuria, Sept. 22.—(U.P.)—Japanese troops today controlled the Tsinghai-Taonan railway, a Chinese operated road of 194 miles connecting with the South Manchuria railway.

Girls' Basketball Meeting Scheduled

Girls' basketball will take off with a flying start at a sign-up rally to be held by the local Japanese Y.W.C.A. athletes this evening, Wednesday, September 23, at 7:30 p.m. at the Japanese Y.W.C.A. building.

About 20 girls are expected to try out for positions on this team, which is being sponsored by the combined Echo clubs of the Y.W.C.A. All those interested are urged to attend the rally, according to Miss Sumi Miho, secretary.

Miss Kaoru Miura, captain of last year's team, will act as temporary chairman of the rally tonight.

ARREST OF U. S. AVIATORS JUSTIFIED, SAYS AMERICAN

The recent arrest and conviction of two American aviators in Japan for taking photographs of fortifications from the air, which aroused so much adverse comment on Japanese military regulations in the American press, was explained in a new light by Ashley E. Holden, secretary of the Japan Society of Seattle, who returned last week from a visit to Japan.

Placing the blame squarely upon the shoulders of Pangborn and Herndon, the two American aviators arrested by the Japanese authorities, Holden in an interview with a representative of the Japanese-American Courier of Seattle, declared that the whole unpleasant incident could have been avoided if the two aviators had shown any tact instead of assuming a "smart aleck" attitude.

THE COMMISSION

Propose International Commission to Make Survey

The project, suggested by Viscount Cecil of Great Britain, envisages a commission composed of the United States military attaché at Nanking and the British, French and Italian military attachés and the German consul, all at Mukden.

Meanwhile, it was hoped both the Chinese and Japanese governments would avoid everything tending to aggravate the situation, and that withdrawal of troops could be effected without bloodshed.

The council intends to transmit the minutes of its deliberations to the United States.

LOCAL BOY LEAVES FOR OMAHA LEHIGH SCHOOL

Paul Akira Tanaka, former student at the University of San Francisco, left Sunday for Omaha where he will enroll for this coming school year in the Medical school of Creighton university. Tanaka is a graduate of St. Ignatius high school of this city.

YARDLEY BOOK INFLUENCES

"This book, which confesses that the U. S. Cryptographic bureau has made a systematic practice of intercepting and decoding Japanese secret diplomatic messages, has created an impression in Japan that America will stoop to any means, however foul, and by theft, deception, and trickery spy into the private affairs of a friendly nation. And indeed, Yardley's book frankly says as much, and to date no official denial has been made by the United States government. Is it any wonder, then, that there are some Japanese who would be suspicious of Pangborn and Herndon?
