SHOWANS USE AIR ATTACK IN PLUCKY SECOND PERIOD COMEBACK; LACK PUNCH

Bay View Defeats Showa 14-0; Nambu Tries Seven Passes; Completes Five Times Aided by Ichiyasu, Inada

Although it wasn't a Halloween dance, evidently the Showans still retained the best feeling in their grid game Sunday with Bay View for the Japanese were defeated by the powerful Butcherettes to the tune of 14-0.

In the first half Bay View completed a long pass to the receiver who snatched the oval out of the air while surrounded by Showa defense men, shook off two lady-like tackles and then ambled the remaining thirty yards to the goal. Again, the opponents skirted the Showa extremity, ran past a couple of seemingly girlish tacklers and galloped from midfield for another touchdown.

Second Half Different

Outweighed as they were by a more experienced outfit, the Showans came back in a fighting mood after the first period armistice and grimly set about to even the count with a do or die spirit.

As a result of Coach Wilson's pep talk, the Showans battled their way gamely down the field on two occasions but both times their

drives were halted inside the enemy ten yard line. Each time the Showans threatened, Bay View met the challenge by rushing in fresh reserves to stem the threat.

Showa took to the air in their sallies that ended deep in the enemy territory. With Nambu pitching, Ichiyasu and Inada catching, the Japanese completed five out of their seven tries, each pass netting about 15 yards.

Ichiyasu's Play

Joe Ichiyasu turned his catch of Nambu's toss, which brought the Showans to the opponent's 10 yard line. Into the prettiest play of the afternoon. Covered by two Bay View backs, Ichiyasu leaped high into the air, and as the opposing backs deflected the egg earthward, the slippery fingered Showa end gathered the ball in his arms a bare inch or so off the ground.

Tom Matsuda at the pivot berth and Goro Mayeda's work at left half sparked the Showan grid team on their drives. Both boys earned the recognition as first string players after their showing Sunday.

RAINFALL IS AGAIN BELOW NORMAL HERE

14th Year Of Short Supply Presents A Bad Situation

It is too early to determine what the water supply is to be for the coming year. It has happened at times in the past that rain was deficient before the holidays and yet the year came out in good shape.

Was the fact that rain thus far this season is again below normal so encouraging. The season of rainfall record begins July 1, but while moisture is expected until the fall months. We have now passed through a cycle of thirteen years in which the rainfall has been below normal, and naturally the fact that the start of the fourteenth year is low causes considerable apprehension. Every locality in which the record is kept, with the exception of Eureka, Santa Rosa and Los Angeles, is below last year, and every locality including those mentioned, is below normal. The situation in a number of localities follows:

San Francisco to date .68, last year .99, normal 1.04.
Sacramento to date .16, last year .75, normal 1.33.
Fresno to date .05, last year .38, normal .82.
Los Angeles to date .31, last year .11, normal .89.

Saturday it was thought that a big storm was near at hand, but it passed eastward through Washington and Oregon, instead of coming down the coast and there is no immediate prospect for rain.

This is not the first time within the history of California in which there has been a long cycle of deficiency in rainfall, but it is about the longest and most serious of such cycles. Throughout much of the state the underground water supply has been declining steadily and there are some sections in which it has become necessary to abandon the irrigation of fields and orchards.

There may be a silver lining to this condition, however, in the fact that it is stirring the people of the state to put into effect a general water development scheme which has been under contemplation for years.

EASTBAY CAT GRID ELEVEN TIES WITH Y

Wildcats Carry Fight In Y Territory; Fast Game

OAKLAND, Nov. 2.—For the second time in two years, the Oakland Wildcats and the San Francisco Y.M.C.A. eleven fought to a scoreless tie at the Oakland Tech field last Sunday.

Strengthened by the return of Domoto, Castlemont high star varsity back, into the line-up, the Wildcats smothered the visitors' passing attack, intercepting numerous tosses and forcing the play into their opponents' territory for a greater part of the game. The Y, however, completed one long pass, Kaneko to Sakai, for a 35-yard gain which was the first half ended.

Both teams showed flashes of power in their running attack, but were unable to march down the field. Neither squad penetrated the opponents' 15-yard line once during the contest.

Another battle between these evenly matched teams may be arranged later in the season, according to Mas Sakata of the East Bay squad and Susumu Yamakawa, Y coach.

WANTS GAME

K. Domoto, scrappy Wildcat's manager, states that any team desiring to fill the open date on his schedule, November 15, can reach him by phoning Trinidad 0900 at Oakland or by writing to him at 7921 Krause St., Oakland.

Severe Shock Felt In Oaxaca, Mexico

MEXICO CITY, Nov. 2.—Dispatches from Oaxaca, Mexico's earthquake center, indicated severe damage resulting from a shock that was felt in Mexico City at 5:37 p. m. Sunday.

News reports said the earthquake was very strong, causing the populace to flee into the streets, and many fell to their knees praying. The electric power failed and some houses collapsed, but there were no reports of casualties.

The government seismograph station here reported the quake strong, of 16 minutes duration, from 5:33 to 5:49 o'clock.

The city's inhabitants were terrorized and fled to the fields.

Other messages from Cordoba and the city of Vera Cruz said the quake, of several minutes duration, was felt there, although no damage was done. Many buildings were damaged at Oaxaca City.

Many were thought to have escaped injury in the city's principal theatre because it was intermission time when the quake shook the building. Most of the audience had fled before the shock cut off the lights.

The populace was sleeping in the open tonight, in spite of the chilly weather.

Rare Japanese Stamps To Be Shown at Palace

Rare stamps valued at over \$1,000,000, included among which are old Japanese stamps, are to be shown in a philatelic exhibition at the Palace hotel on November 13, 14 and 15. The San Francisco Stamp Society, Oakland Philatelic Society and the Los Angeles Philatelic Club are the three groups which are staging the joint exhibition.

Jobless Cut Wood

DETROIT, Nov. 2.—Reducing old timbers to stove and furnace size for sale to the public has been introduced here as an unemployment aid. Sixty men from the Fisher Lodge for the homeless sawed and chipped 25 carloads the first day, all of which was readily sold.

Fathers and Sons To Hold Session

(Special to Japanese American News)
LOS ANGELES, Nov. 2.—All members of the affiliated organizations of Los Angeles Japanese YMCA and their fathers will gather at the Japanese Christian church on Friday night, November 13, for a Father and Son banquet. About 200 persons are expected to attend.

The groups to be present are: Oxy Hi-Y, Spartan Y, Hollywood Hi-Y, Hawthorne Hi-Y, Gardena Commodores, Union Church Pioneers and Friendly Indians, and Christian Pioneers and Friendly Indians.

Dr. T. G. Ishimaru will be toastmaster for the evening. Dr. K. Nakaki, chairman of the executive board will give a short talk greeting the fathers and sons.

BUSINESS IS IMPROVING IN MANY LINES

Reports of Numerous Sections Indicate Better Times

At last there is very definite evidence that business conditions are improving throughout the country, many lines of manufacture and trade telling of better times at hand.

Since 1873 there have been nine serious depressions in business, each bringing misfortune to individuals throughout the civilized world, but the duration of each of the others has been about two years, while this one will be listed as covering three years. In the previous depressions trade and manufactures have fallen to 80 per cent of normal, but this one went down to 70 per cent, making it much worse in percentage as well as duration.

Now the percentage has begun to rise slowly, and there is real reason to expect that in the course of a few months it will come back to normal. But it comes too late in the fall, when there usually is a good deal of unemployment to continue through the winter. The suffering is not ended, but it is some satisfaction to see affairs turning upward, even though the improvement comes slowly.

The reason why this depression has been worse than previous ones is that the World War threw upon the people of the world the heavy burden of paying for the war. Now everywhere in the world there are signs that the severe experience is about over.

Japanese to Visit Huntington Library

(Special to Japanese American News)
LOS ANGELES, Nov. 2.—Due to the efforts of Clarence Arima, president, the Japanese American Savings Association of Los Angeles has obtained permission to visit the Huntington Library in Pasadena, November 11. The excursion is limited to members of the association.

All members are to meet in front of the Japanese Union church at 12:15 p. m. on November 11 to go en masse to the Huntington Library.

All members who wish to go are requested to make reservations with Mr. Arima before Tuesday, November 3, as a list of names must be handed in a week in advance.

The lady friends of the members are also invited to join the party on the excursion.

Members may get in touch with Mr. Arima at Empire 5072 or Empire 0619.

"THIRST CURE" SUCCESSFUL

PHILADELPHIA, Nov. 2.—The "thirst cure," a new method of warding off feeble mindedness and after effects of head injuries by depriving the patients of drinking water, has been tried with success at the Temple University Medical Center, according to an announcement made by Dr. Temple Fay, professor of neuro-surgery at the center.

CONFLICT WITH RUSSIA LOOMS AS POSSIBILITY IN MANCHURIAN AFFAIR

Alarming Report Comes By Way Of London Saying Soviet Is In Belligerent Attitude Against Japan

By United Press
LONDON, Nov. 2.—Japanese military advances against two points within the "Russian sphere of influence" in Manchuria and a "secret Chinese-Russian" treaty were reported today in alarming dispatches to the London newspapers concerning war threats in China.

The Daily Express correspondent at Tokyo said the Japanese infantry en route from Kirin to Tsouan were moving with "extreme caution" and under protection of strict censorship on news dispatches.

The Soviet, warned last week by Japan against mobilization of its troops in Manchurian territory, was reported "in a belligerent attitude."

Japanese To Advance

The Daily Mail correspondent at Tokyo reported that Japanese were threatening to advance northward from Kirin Province because Chinese troops in Northern Manchuria had defied a Japanese ultimatum to repair a damaged railroad bridge. The bridge was wrecked last week by the Japanese aviators who said Chinese had fired on them. The ultimatum will expire tomorrow.

Preparations were reported started at Mukden, the Manchurian capital, to send a powerful Japanese

KAGOSHIMA TO CHANCE ATHLETE'S FOOT BY TOUR OF U. S. TO START IN APRIL

Kinzo Mochitome Plans Ambitious Walking Journey Across United States; Has Preliminary Trial

Word has reached here that Kinzo Mochitome, 41 year old villager of Shikine-mura, Aitragu, Kagoshima Prefecture, is scheming to stage a solo marathon from San Francisco to the eastern part of the United States in April, 1932.

The ambitious marathoner has to his credit his record made in the round-the-Kyushu running trip he carried out in April this year. He says he has hit upon his present plan after seeing so many foreign aviators stage spectacular long distance flights.

Chance To See Athlete's Foot

"I can't sit still at home," he declares, "when we see Mr. Pangborn and Mr. Herndon fly from Japan to the United States in one hop. I am not an airman, and I will have to leave the second non-stop flight to our aviators. Instead I intend to go to America and take a chance on getting athlete's foot."

"What I am after is a new world record, after it is made by covering the whole distance including the Rockies in as few days as possible."

As a sort of trial run previous to his trans-American one-man race, Mochitome started a 600 mile marathon from Tokyo to his home village on October 24. Watched by a fast gathering crowd in front of the Nijubashi bridge of the Imperial Palace, Tokyo, the plucky one-man-power locomotive of Southern Japan began his long westward "flight" which is to have occasional stops.

To Elect President P C Baseball League

By United Press
SACRAMENTO, Nov. 2.—Election of a president of the Pacific Coast Baseball League promised to be one of the features of the annual meeting of club owners which got under way here today.

President Harry Williams, whose term does not expire until next January, is out for re-election. Wade "Red" Killefer, former president of the San Francisco Missions is reported to have secured strong support for the post.

According to pre-election reports, the election is expected to hinge on the Portland club, with friends of both Williams and Killefer claiming Tom Turner's vote, while other clubs are claimed to be split.

Other questions which probably will come up for a decision include the split week and the fate of night baseball.

RAINBOW RIDERS

HONOLULU, Oct. 31.—The University of Hawaii football eleven has two Japanese who are listed starting regulars. They are Henry Kusumai, center, and Teddy Nozibriga, flashy quarterback.

Shizue Morey Gets Instructor's Post

(Special to Japanese American News)
LOS ANGELES, Nov. 2.—Miss Shizue Morey, well known local girl, left for Davis, Cal., to begin duties as assistant instructor in biochemistry at the Davis Agricultural College, a branch of the University of California, last Friday.

Miss Morey is a graduate of the UCLA and received her Master of Science degree in chemistry at the University of California at Berkeley. At both institutions she made a remarkable record in her studies.

She is a graduate of the University of California at Berkeley and received her Master of Science degree in chemistry at the University of California at Berkeley. At both institutions she made a remarkable record in her studies.

BRUINS CLAW MUDHEN GRID TEAM TO WIN

Matsushima Carries Egg Across In Hard Battle

(Special to Japanese American News)
ALAMEDA, Nov. 2.—After three quarters of scoreless rough and tumble playing, the U. C. Students club football machine, rolled down the field early in the final period to score a 3-0 victory over the fighting Alameda Mudhens last Sunday at the local Taikuu grounds.

Smashing line-backs by Hachi Yuzasa and Mike Matsushima and sweeping end runs with Kawashima carrying the ball, enabled the collegians to reach the one yard line from where Matsushima plunged over for the lone touchdown.

Miki Passes

Undaunted by the score, the Mudhens bucked their way from midfield at the kickoff. George Miki unrolled his spectacular passes which fell into the waiting arms of George Tanaka, end, for a 40-yard gain, raising the hopes of the 300 Alameda fans who witnessed the contest. The Berkeley boys, however, repulsed the last minute rush to take the game.

The local team was weakened in the first quarter by the loss of Tazuo Imura, stellar halfback, who was forced to retire from the game due to a painful injury. An X-ray will be taken to ascertain the seriousness of the wound. Mike Matsushima, hard-hitting California back, carried off the field late in the game, but reports Monday indicate that he had not fully recovered.

Ohashi Stars

Ted Ohashi, playing with one arm in a cast, was one of the mainstays of the UC line, while Nogami and Morino stopped the heavy college backs on numerous occasions.

The Alameda squad will meet the Berkeley Nisei eleven next Sunday, while the UC students will battle with the San Francisco YMCA in San Francisco.

L. A. Syphon Is Dynamited Again

LOS ANGELES, Nov. 2.—The Los Angeles aqueduct bringing water from Owens Valley to this city, was dynamited near Mojave early this morning, according to reports received at the sheriff's office.

The message asked that all available to be rushed to the scene. No details were immediately available.

The postmaster at Little Lake, a village in the vicinity of the aqueduct, told the United Press by telephone that little damage was done. He said, however, a highway in Grapevine Canyon had been washed away.

The postmaster said he "wasn't sure" dynamite had caused the rupture. He said the aqueduct held more water than usual and that he thought it was possible this caused the siphon to break.

He said he understood two legs of the siphon went out.

Little Lake is in Kern county, about 80 miles south of Owens Lake. The aqueduct taps Owens River just above Owens Lake.

It is the desire of the News to have reports from all parts of the state, and asks your aid.

Capone Jr. to Serve In Jail Immediately

WASHINGTON, Nov. 2.—Ralph J. Capone, younger brother of the reputed Chicago gang leader, Al Capone, must immediately begin service of the three year jail sentence imposed upon him for attempted income tax evasion as the result of a supreme court ruling handed down today.

The court refused to review the procedure under which the younger Capone was convicted in Chicago as one of the first cases in the government's drive to punish alleged racketeers under the internal revenue laws.

TRYING TO FIND OUT WHAT IS SITUATION THROUGH MANCHURIA

United States Sends Observer To Study The Conditions There And Then Submit A Report

War always closes the source of news in the country affected, and it is not strange that there are a good many conflicting rumors coming out of Manchuria, where Japan, China and Russia all have interests at stake and each country naturally is trying to get its story in favorably light before the world.

There are reports that Russia and China are joining forces against Japan, while other reports have it that Russia is assuming a neutral attitude, not unfriendly to Japan. Which is correct it is impossible at this stage to determine.

To Celebrate Opening International Building

(Special to Japanese American News)
LOS ANGELES, Nov. 2.—In celebration of the completion of the new International Institute building on Boyle Avenue, an International bazaar will be held on Saturday, November 21, in which all the nationalities will be represented.

The main program will commence at 8 p. m. The main attraction will be the performance of the Japanese girls in dances of Japan. The girls are rehearsing now in preparation for the International program.

Old Persian Cemetery Reveals Ancient Race

PHILADELPHIA, Nov. 2.—Discovery of a cemetery more than 4000 years old and containing probably the earliest archaeological treasures ever found in Persia was announced today by Horace H. F. Jayne, director of the University of Pennsylvania Museum.

The cemetery was discovered by the joint Persian expedition of the University Museum and the Pennsylvania Museum of Art at Tepe Hisar, near Damghan. Its scores of graves contain remains of an ancient people whose racial origin is unknown, but who, the archaeologists believe, may possibly form a connecting link between India and Mesopotamia.

FOR ARMISTICE DAY SAN PEDRO, Nov. 2.—Vessels of the United States Pacific fleet will be dispersed to various Pacific ports for Armistice day, November 11.

COLLEGE DEBATES

FRESNO, Nov. 2.—Fresno State College debaters will meet a two-man team representing Robert College in Istanbul, Turkey, here November 13, with the question: "Resolved, That the world has more to fear from fascism than from bolshevism," as the subject. Suha Zeki and A. Galib Rifai will represent the Turkish institution.

Nikko, Nippon Resort Best Known in World, Ready to Greet More Visitors

No scenic spot in Japan has acquired such high fame as Nikko internationally. It is the representative place of interest in the Empire and to foreign tourists it sounds like a word signifying Japan's scenic and historic wonders.

In proportion to the spreading fame of the town, the number of the visitors, Japanese and foreigners, is increasing steadily year after year. Today the number of yearly visitors breaks the half million mark.

Up To Date

The utmost care is being taken to protect the scenic beauty of the place. Forests are under official protection. Nikko keeps pace with the age of speed. Any visitor to Nikko will find that the traffic facilities are up to date and the surrounding scenic spots such as the Nasu and Shobara hot springs, Mt. Akagi, and Haruna can be reached conveniently in brief time.

Nikko has many motor buses within the city limits, so that visitors can stay even on a one-day trip. Charges at the large hotels are reasonable.

Beautiful Chuzenji

The most beautiful scenery in and around Nikko is probably the view of Lake Chuzenji. One can see the placid lake of deep indigo blue from a bus running from Nikko to Chuzenji. The lake is about two miles in extent from east to west, and the circumference is about 16 miles.

A lake high up in the hills is usually lonely and desolate, but Lake Chuzenji is bright and gay. This is the reason why the lake is so popular among foreign visitors and local residents.

In the lakeside are many large hotels and the villas of foreign diplomats. In the summer yachting is a favorite recreation on the lake. Red sails reflected on the calm water and more color is lent to the scenery.
