## MANCHURIAN INDEPENDENT ARMY DEFEATED, LEADERS REPORTED TO BE EXECUTED

### Regular Chinese Forces Overcome Troops Seeking To Set Up New Manchu Government in North

TOKIO, Nov. 3.—Forces under Gen. Chang Hsueh-Liang, Manchurian dictator, defeated the Independent army of Gen. Ling Yin-Ching near Chinchon today, marking the first victory over the revolutionary forces.

It was reported that Gen. Ling, who was endeavoring to establish an independent government in the Northeastern Province, with his "peoples army" was captured and executed.

## NEW CLASHES ARE FEARED THE NORTH

### Chinese Do Not Comply With Demand For Repairs

TOKIO, Nov. 3.—Renewed clashes in Manchuria were believed imminent today when the province reported that Chinese officials had failed to comply with a Japanese ultimatum demanding repairs to a bridge over the Monni River.

Japanese leaders decided to have the bridge repaired themselves when the time limit set by the ultimatum expired without action by Gen. provisional government.

## To Honor Elders On Pioneer Day

FRESNO, Nov. 3.—Pioneer Day will be celebrated next Sunday, November 8, by the Central California YWBA League when it entertains 113 elderly Japanese people of Central California past the age of 60.

Accepting the League of Nations assembly projects for a one year truce, ratified by 37 states out of 63, the Soviet foreign commissar, Maxim Litvinoff, made reservations against accepting of a "gentlemen's agreement" not to arm.

## Camellia Girls Have Gay Halloween Party With Mask Features

SACRAMENTO, Nov. 3.—With 33 guests in attendance, one of the most successful Halloween socials ever given by the Camellia Girl Reserves was held at the YWCA club house last Friday evening.

Black and orange streamers, shaded lights, crepe paper decorations, greenery, flowers, pumpkins, black cats, and skeletons, transformed the low-hung, many windowed cottage into an atmosphere of mystery and adventure.

## Fresno Youths Took Hand In Halloween

FRESNO, Nov. 3.—Halloween night with its accepted frivolous, gay atmosphere, was celebrated in Fresno by various parties of different organizations.

The YW-YMBA held a game party at the Buddhist Temple in the YWBA hall which was cleverly decorated in orange and black colors.

## Meager Details of Severe Earthquake On Southern Islands

TOKIO, Nov. 3.—A mounting casualty list was feared today as meager details of a severe earthquake on Kyushu and Shikoku islands reached Tokyo over repaired communication lines.

## What Causes Quakes Is Shown By Science

There have been numerous theories advanced to explain the earthquakes which recur throughout the world, but one of the most interesting, and apparently the most probable, is that the shrinkage of the interior of the earth as it cools, causes a readjustment of the earth's crust. It is at the weak points in the crust that the quakes are frequently felt.

It is the belief that in the early life of the earth, a tremendous mass of matter was thrown out from where the Pacific ocean now is and that that mass of matter became the moon. This created an immense deep in the Pacific. The theory is that the American continents were joined with Europe and Africa at the time the moon's mass was thrown off.

Matter in revolution tends to assume a uniform surface, and there was a force exerted to pull the land masses towards the great deep in the Pacific, with the result that four great faults developed in the crust of the earth, one extending along the Atlantic coast of Europe and Africa, where the American continents were broken away, a second along the Atlantic coast of the Americas, a third along the Pacific coast of the Americas and the fourth along the Pacific coast of Asia, or more particularly through the islands off that coast.

There remains even now one of the great deeps in the Pacific off the eastern coast of the Japanese islands, and the pull of the earth to fill that deep continues to cause quakes throughout the islands. The same influence continues to cause quakes at frequent intervals all along the Pacific coast of the American continents, and less frequently along the Atlantic coasts of both the eastern and western shores of that ocean.

We speak frequently of "old earth" but in a sense the earth is new. It still is in the process of the making, and the earthquakes are testimony to that fact.

## SANTA CLARA FIVES READY

SAN JOSE, Nov. 3.—The Santa Clara valley casa tossers will be in full swing Saturday, Nov. 7, when the local Nitto squad travels to Palo Alto while the Mt. View Kyowans will invade San Jose.

The local fans seem to believe that the Nitto team has an even chance to win from the Pally quint although the home guard will be under a slight handicap because of the strange floor, while in the game here between the locals and the Kyowa outfit the dope favors the visitors as they were the last year's J. A. A. U. champions.

## CARRIES RECORD LOAD

WASHINGTON, Nov. 3.—The Navy department was advised today in a message from Lakehurst that the ship Akron was aloft with 207 persons, a record breaking human load, aboard. The craft is on a training flight without fixed itinerary, the message said.

## PARENTS STUDY WITH CHILDREN

FLAGSTAFF, Ariz., Nov. 2.—Splendid order is obtained in the El Sabino rural school, near here, as 15 parents are attending it, studying along with their children in making up for educational opportunities not afforded in their youth.
