In view of the approaching international competition at Los Angeles which will inevitably make that city the center of wire and wireless communications, the Communications office is hoping for the launching of the service before the opening of the world games.

U. S. Refutes Japan Stand for Retaining Under-Water Craft

GENEVA, May 6—Refuting Japan's position that the submarine is the weapon of the smaller maritime powers, Senator Claud A. Swanson, Virginia, attacked the disarmament conference yesterday for its loathness to abolish the under-sea crafts of war.

Speaking before the naval commission, the American delegate created the biggest sensation since the opening of the party when he made it clear that the United States is prepared to maintain a fleet of big submarines of long distance sailing range for the defense of its Philippine possessions unless the conference abolishes submarines altogether.

"Nations denied by treaty the right to defend their overseas possessions by the maintenance of submarine bases nearby must have submarines with a sailing radius great enough to operate successfully in defense of those possessions," he said.

JUNIOR AND SENIOR CLUB

Conducted by AUNT PEGGY

1 egg yolk 1/4 teaspoonful vanilla 3 tablespoonfuls milk 1/2 cupful flour 1/2 teaspoonful baking powder A pinch of salt

Bake seven to ten minutes in a moderate oven. This recipe makes ten or more tiny cup cakes.

Auntie measured the melted butter and put it in the mixing bowl. Kimiko, will you stir and beat the butter until it is soft and creamy? Then add sugar, a little at a time. Beat each time to keep the mixture smooth.

And, Dorothy, will you beat the egg yolk? Beat it slightly. That's right, dear. Now you may put it in the bowl.

See, girls, Auntie sifted and measured the flour. Alko, would you bring Auntie the baking powder and salt? Now we add them to the flour and sift again. Sally, you pour the milk and flavoring into this cup. Will you? Thank you.

Now, girls, we will add a little flour and then a little milk to the mixture in the bowl; then a little more milk, until it is all in. Now we have the cake batter. Let us take turns at beating the cake batter.

It is your turn to beat the cake batter, Takayo-san. See, dear, one secret of good fluffy cake is plenty of beating. Kuyemo-san, please grease the

muffin pan. Now you may fill them with the cake batter and put them into the oven. Has the oven been heated for awhile? That's fine. Now be careful, don't burn yourself!

While they are baking let us make the icing.

This is called Seven Minute Icing: 1 unbeaten egg white Two-thirds cupful sugar 3 tablespoonfuls cold water 1/2 teaspoonful baking powder 1/2 teaspoon vanilla

Put cold water, egg white, sugar into the upper part of a double boiler and beat it with egg beater over the boiling water for seven minutes; remove it from fire; add vanilla and baking powder and beat the icing until it is cool.

It is about time our cakes are done. Si Tamura, please take them out. Don't burn yourself!

"Oh, it came out fine. Don't they look delicious?" shouted the girls. "The boys looked quite proud as if they took part in making them."

"Oh, I know," shouted Crony. "I am going to bake this cake recipe in two small layer pans instead of muffin pans. I will ice the cake and that will be my gift for my mother tomorrow."

Goodbye for today. May tomorrow be a happy day for you all, dear members.
